Scale

0

Features

Unit

Sec. 25

T. 16

S. R 1E

County

Dickinson

Date 12/2/51

Locality description On west side of draw

Measured by N. Plummer

Remarks

No.	Description	Thickness
4	Soil cover	3-5
3	Clay - gray and dark red mottled, red tends to occur in vertical streaks, blocky, fairly plastic	7.0
2	Clay - mostly fairly light gray with some darker, with irregular stain and patches, upper 2 feet seems to be clean of stain, and other levels also seem to be all gray	17.0
1	Clay - exposed below bed 3, but due to dip or cross-bedding, exact thickness of clay is difficult to determine (not measured)
