Wichita Well Sample Library 2010 Preservation Activities

☑ Oil and gas operators provided the Wichita Well Sample Library formation samples from 1,636 wells.

☑ Samples from 1,543 wells were preserved at an average rate of 828 sample feet per hour for a total of 2,198 processing hours.

☑ 185,000 sample envelopes and 1,300 sample boxes were used in the preservation process.

☑ Samples from 76 wells were discarded because the samples were not geologically significant to the oil or gas operator and the Library.

☑ Staff preserved 1.82 million sample feet, equivalent to the distance between Wichita, Kansas and Dallas, Texas.

☑ The sample maintenance program examined 384 sample boxes and resolved 1,663 issues including recovering missing samples for 120 wells.
