Oil and gas operators provided the Library with samples from 2,159 oil, gas or injection wells.

- Samples from 2,088 wells were preserved at an average rate of 1,512 sample feet per hour for a total of 2,600 processing hours.
- 201,250 sample envelopes and 3,100 sample boxes were used to preserve well samples.
- Samples from 73 wells were discarded because the samples were not geologically significant to the oil or gas operator and the Library.
- Staff preserved 3.35 million sample feet, the equivalent to the flight distance from Wichita, Kansas to Huntsville, Alabama.
- Utilized 915 hours to restore 1,847 well sample boxes and resolved 8,900 sample preservation issues, including the recovery of samples for 231 wells.
