RE: Drilling Pit Application
McMillan Lease Well No. 4
NW/4 Sec. 34-24S-12W
Stafford County, Kansas

Dear Mr. Anderson:

District staff has inspected the above referenced location and has determined that the reserve pit shall be constructed *without slots*, the bottom shall be flat and reasonably level, and the free fluids must be removed. The fluids are to be removed from the reserve pit as soon as the Hutchinson Salt section has been drilled through and displacement of the fluids into the reserve pit has occurred. The fluids should be removed again as soon as practical after drilling operations have ceased. 
*Please keep the pits away from the draw.*

If production casing is set all completion fluids shall be removed on a daily basis.

The fluids should be taken to an authorized disposal well. Please call the District Office at (620) 225-8888 when the fluids have been removed. Also please file the enclosed CDP-5 form, Surface Pond Waste Transfer, within 30 days of fluid removal.

*A copy of this letter should be posted in the doghouse along with the approved Intent to Drill.*
If you have any questions or concerns please feel free to contact the undersigned at the above address.

Sincerely,

Kathleen Haynes
