Dear Herb:

We are in the process of filing our CP-1 on this well that Bobby Beard had. We have laid the well out and as I predicted we only had 1 joint of tubing and polish rod stuck in the hole. This doesn't agree with what the T.A. Well Application Form states. I have run a wireline to check how far we could get down and it stopped at 59’. My plans are to move in a workstring and try to get as far down as possible.

I do recall that when Bobby Beard worked on this well in the past, he could only get to 1250’-1300’.

Sincerely,

Edward S. Nemnich

NOTICE OF RECEIPT OF WELL PLUGGING APPLICATION (CP-1)

K & N Petroleum, Inc.
513 W. 6TH St
Ellinwood, KS 67526

Re: MUSENBERG B #7
API 15-009-06832-00-00
NESWSE 33-18S-11W, 990 FSL 1650 FEL
BARTON COUNTY, KANSAS

July 29, 2004

Dear Operator:

This letter is to notify you that the Conservation Division is in receipt of your plugging proposal, form CP-1, for the above-captioned well.

Your CP-1 has been reviewed by the Conservation Division central office for completeness and to verify license numbers. The plugging proposal will now be forwarded to the district office listed below for review of your proposed method of plugging.

Please contact the district office for approval of your proposed plugging method at least five (5) days before plugging the well, pursuant to K.A.R. 82-3-113 (b). If a workover pit will be used during the plugging of the well it must be permitted. A CDP-1 form must be filed and approved prior to the use of the pit.

The Conservation Division's review of form CP-1, either in the central or district office, does not include an inquiry into well ownership or the filing operator's legal right to plug the well.

This notice in no way constitutes authorization to plug the above-captioned well by persons not having legal rights of ownership or interest in the well. This notice is void after ninety (90) days from the above date.

Sincerely,

David P. Williams
Production Supervisor
