Phillips County

Gentlemen:

This letter is to notify you that the Conservation Division is in receipt of your plugging proposal, form CP-1, for the above-captioned well.

Your CP-1 has been reviewed by the Conservation Division central office for completeness and to verify license numbers. The plugging proposal will now be forwarded to the district office listed below for review of your proposed method of plugging. Please contact the district office to review your proposed plugging method at least five (5) days before plugging the well.

It has recently come to my attention that the form CP-1 has been filed by operators other than the owner or operator of the well and without the consent of the owner or operator. The Conservation Division's review of form CP-1, either in the central or district office, does not include an inquiry into well ownership or the filing operator's legal right to plug the well. The CP-1 is simply reviewed to determine compliance with plugging rules and regulations.

This notice in no way constitutes authorization to plug the above-captioned well by persons not having legal rights of ownership or interest in the well. This notice is void after ninety (90) days from the above date.

Sincerely,

Shari Feist Albrecht
Director

Gentlemen:

This letter is to notify you that the Conservation Division is in receipt of your request for an extension of time in which to plug the above-captioned well. You are hereby granted an extension of sixty (60) days in which to plug the well.

Please contact the district office listed below to review your suggested method of plugging at least five (5) days before plugging the well (K.A.R. 82-3-113).

This notice is void after sixty (60) days from the above date.

Any additional extension may be granted for good cause only upon written request to this office.

Sincerely,

Shari Feist Albrecht
Director

SEC 18-5S-20W
PHILLIPS COUNTY, KANSAS

WELL SUMMARY
8-5/8" casing @ 1683' w/ 750 sx
5-1/2" cement lined casing @ 3592' w/ 200 sx
PBTD 3696'
* 863' cement lined casing previously recovered
  Fish at ±885'
Suspect hole in 8-5/8" casing

SHALLOW FORMATION IN AREA
Dakota  630'
Cheyenne  920'
Anhydrite 1675'

1. Prior to plugging, obtain final approval of project from the
   KCC District Office #4, Hays, Kansas (913) 628-1200.

2. Run a 2" workstring to 854' and spot 65/35 cement w/ 8% gel
to surface (Approx. 210 sx cement). Tie onto 8-5/8" and
attempt to pressure up.

3. Let cement set 48 hours, check TOC and cap well.
