KANSAS CORPORATION COMMISSION
OIL & GAS CONSERVATION DIVISION
NOTICE OF INTENT TO DRILL

Must be approved by KCC five (5) days prior to commencing well

FOR KCC USE:
Effective Date: 12/19/04

District #: 1

SGA? No

Expected Spud Date: 12/20/04

OPERATOR: License #: 5447

Name: OXY USA Inc.

Address: P.O. Box 2528

City/State/Zip: Liberal, KS 67905

Contact Person: Vicki Carder

Phone: (620) 629-4242

CONTRACTOR: License #: 33737

Name: Cheyenne Drilling, LP

Well Drilled For:

☐ Oil ☐ Gas ☐ Disposal ☐ Storage ☐ Wildcat ☐ Cable

Well Class: ☐ Oil ☐ Gas ☐ Storage ☐ Wildcat ☐ Cable

Type Equipment: ☐ Mud Rotary ☐ Air Rotary

If OWWO: old well information as follows:

Operator:

Well Name:

Original Completion Date:

Original Total Depth:

Directional, Deviated or Horizontal wellbore?

☐ Yes ☐ No

IF Yes, true vertical depth 

Bottom Hole Location 

KCC DKT #:

Proprietor: Spud Location

NOTE: Locate well on the Section Plat on reverse side

County:

Lease Name:

Field Name:

Well #: 5

Is SECTION ___ Regular X Irregular?

Target Formation(s):

Nearest Lease or unit Boundary:

Ground Surface Elevation:

Water well within one-quarter mile

Public water supply well within one mile:

Depth to bottom of fresh water:

Depth to bottom of usable water:

Surface Pipe by Alternate:

Length of Surface Pipe Planned to be set:

Length of Conductor Pipe Required:

Projected Total Depth:

Formation at Total Depth:

Water Source for Drilling Operations:

DWR Permit #:

Will Cores be taken?

☐ Yes ☐ No

If Yes, Proposed zone:

AFFIDAVIT

The undersigned hereby affirms that the drilling, completion and eventual plugging of this well will comply with K.S.A. 55-101, et. seq.

It is agreed that the following minimum requirements will be met:

1. Notify the appropriate district office prior to spudding of well;
   2. A copy of the approved notice of intent to drill shall be posted on each drilling rig;
   3. The minimum amount of surfacing pipe as specified below shall be set by circulating cement to the top; in all cases surfacing pipe shall be set through unconsolidated materials plus a minimum of 20 feet into the underlying formation.
   4. If the well is dry hole, an agreement between the operator and the district office on plug length and placement is necessary prior to plugging;
   5. If this well is not the last well drilled in the general area, the well shall be plugged in the manner required by the district office.

I hereby certify that the statements made herein are true and to the best of my knowledge, belief.

Date: December 10, 2004 Signature of Operator or Agent:

For KCC Use ONLY

API # 15 - 129 2 1747 00 00

Conductor pipe required: NONE feet

Minimum Surface pipe required: 550 feet per Alt. -

Approved by: RSP 12/14/04

This authorization expires: 01/05/05

(This authorization void if drilling not started within 6 months of effective date)

Spud date: 

Agent:

Remember:

- File Drill Pit Application (form CDP-1) with Intent to Drill;
- File Completion Form ACO-1 within 120 days of spudding date;
- File acreage attribution plat according to field acquisition order;
- Notify appropriate district office 48 hours prior to workover or re-entry;
- Submit plugging report (CP-4) after plugging is completed;
- Obtain written approval before disposing or injecting salt water.
- If this permit has expired (see authorized expiration date) please check the box below and return to the address below.

☐ Well Not Drilled - Permit Expired

Signature of Operator or Agent:

Mail to: KCC - Conservation Division, 130 S. Market - Room 2078, Wichita, Kansas 67202

RECEIVED

KCC WICHITA DEC 13 2004
If the intended well is in a prorated or spaced field, please fully complete this side of the form. If the intended well is in a prorated or spaced field complete the plat below showing that the well will be properly located in relationship to other wells producing from the common source of supply. Please show all the wells and within 1 mile of the boundaries of the proposed acreage attribution unit for gas wells and within ½ mile of the boundaries of the proposed acreage attribution unit for oil wells.

API No. 15 -
Operator: OXY USA Inc.
Lease: Crayton A
Well Number: 5
Field: Panoma Council Grove

Location of Well: County Morton
1250 feet from □ N / □ S Line of Section
1250 feet from □ E / □ W Line of Section
Sec. 18 Twp. 32S R. 39

Is Section □ Regular or X Irregular
If Section is irregular, locate well from nearest corner boundary.
Section corner used: □ NE □ NW □ SE X SW

PLAT
(Show location of the well and shade attributable acreage for prorated or spaced wells.)
(Show footage to the nearest lease or unit boundary line.)

Note: In all cases locate the spot of the proposed drilling location.

In plotting the proposed location of the well, you must show:
1. The manner in which you are using the depicted plat by identifying section lines, i.e. 1 section, 1 section with 8 surrounding sections, 4 sections, etc.
2. The distance of the proposed drilling location from the sections south / north and east / west.
3. The distance to the nearest lease or unit boundary line.
4. If proposed location is located within a prorated or spaced field a certificate of acreage attribution plat must be attached. (CO-7 for oil wells; CG-8 for gas wells).
NOTICE TO OPERATORS DRILLING IN THE PANOMA-COUNCIL GROVE GAS POOL SPACED AREA

The enclosed intent is located within the Panoma-Council Grove gas pool space area. In May 1978, Panoma-Council Grove Proration Order (as amended), Docket No. 60,024-C (C-7058) under FINDINGS OF FACT AND LAW on page 31, the following language is stated that:

“The Commission finds that in order to prevent waste and protect correlative rights, the following stated rules pertaining to wells already completed, in the process of being drilled or for future wells to be drilled in the Panoma Council Grove Gas Pool Spaced area, and for wells producing from the Council Grove Formation outside of the Panoma Council Grove Gas Pool Spaced area within the Hugoton Gas Field, should be adopted.”

1. “No dual completions between the Chase (Hugoton) and Council Grove Formations will be permitted for future wells drilled.”

2. “Casing shall not be set above the top of the Council Grove Formation for a Council Grove producing well.”

3. “The production casing of all new Council Grove wells should be cemented with a calculated volume of cement sufficient to encase the casing from the bottom of the casing to a point 500 feet above the Chase Formation.”

4. “The casing shall be encased in cement in the interval between the base of the Council Grove and the top of the Chase Formation on all wells, irrespective of depth, completed below the Council Grove Formation, if they are located within the space area.”

5. “The cement coverage heretofore required shall be confirmed by the running of a recognized survey, such as a temperature survey or cement bond log.”

A copy of this survey and the cement ticket(s) showing that all cement work has been completed, must be filed with the ACO-1 Completion Report within 120 days from the wells “spud date.”

Failure to comply with these provisions may cause the well to be shut-in until compliance has been achieved.

If you have any questions, please feel free to contact the Conservation Division’s Production Department at (316) 337-6200.
