Affidavit

The undersigned hereby affirms that the drilling, completion and eventual plugging of this well will comply with K.S.A. 55 et. seq.

1. Notify the appropriate district office prior to spudding of well;
2. A copy of the approved notice of intent to drill shall be posted on each drilling rig;
3. The minimum amount of fluid will be used as specified below shall be set in cement to the top of all casing spudded through all unconsolidated materials minus a minimum of 20 feet into the underlying formation.
4. If the well is dry hole, an agreement between the operator and the district office on plug length and placement is necessary prior to plugging.
5. The well district office will be notified before well is either plugged or production casing is cemented in;
6. An alternation II completion, production pipe shall be cemented below any usable water to surface within 100 days of spud date.

Date: 1-24-05

Signature of Operator or Agent

Remember to:
- File Drill Plan Application (form CCG-1) with intent to Drill;
- File Completion Form ACG-1 within 120 days of spud date;
- File acreage reduction prior to field production orders;
- Notify appropriate district office at least 48 hours prior to workover or re-entry;
- Submit plugs report (CP-4) after plugging is completed;
- Obtain written approval before disposing of or injecting salt water;
- If the permit has expired (less than an expiration date), please check the box below and return the address below.

Mail to: KCC - Conservation Division, 130 S. Main - Room 2078, Wichita, Kansas 67202
IN ALL CASES PLOT THE INTENDED WELL ON THE PLAT BELOW

PLOT of acreage attributable to a well in a prorated or spaced field

If the intended well is in a prorated or spaced field completing the plat below showing that the well will be properly located in relationship to other wells producing from the same source of supply. Please show all the wells and within 1 mile of the boundaries of the proposed acreage attribution unit for gas wells and within 1/2 mile of the boundaries of the proposed acreage attribution unit for oil wells.

Acre No. 15:
Operator:
Lease:
Well Number:
Field:
Number of Acres attributable to well:

If Section is Irregular, locate well from nearest corner boundary. Section corner used:

NOTE: In all cases locate the spot of the proposed drilling location.

In plotting the proposed location of the well, you must show:
1. The manner in which you are using the depicted plat by identifying section lines, i.e. 1 section, 1 section with 8 surrounding sections, 4 sections, etc.
2. The distance of the proposed drilling location from the section's south, north and then west.
3. The distance to the nearest lease or unit boundary line.
4. If proposed location is located within a prorated or spaced field a certificate of acreage attribution plat must be attached (CD-7 for oil wells; CD-8 for gas wells).
