Affidavit

The undersigned hereby affirms that the drilling, completion and eventual plugging of this well will comply with K.S.A. 55 et seq.

It is agreed that the following minimum requirements will be met:

1. Notify the appropriate district office prior to spudding of well;
2. A copy of the approved notice of intent to drill shall be posted on each drilling rig;
3. The minimum amount of punctate pipe as specified below shall be set by circulating cement to the top; in all cases surface pipe shall be set through an unconsolidated materials plus a minimum of 20 feet into the underlying formation.
4. If the steel is dry hollow, an agreement between the operator and the district office in plug length and placement is necessary prior to plugging.
5. The appropriate district office will be notified before well is either plugged or production casing is cemented in it;
6. If an ALTERNATIVE ii COMPLETION, production pipe shall be cemented "from below any usable water to surface within 120 days from the spud date.
Or pursuant to Appendix "B", Eastern Kansas surface casing order 153-891-C, which applies to the KCC District 3 area, alternative II cementing must be completed within 30 days of the spud date or the well shall be plugged. In all cases, NOTIFY district office prior to any cementing.

I hereby certify that the statements made herein are true and to the best of my knowledge and belief.

NOTE: In all cases locate the spot of the proposed drilling location.

Barton County

In plotting the proposed location of the well, you must show:

1. The manner in which you are using the depicted plat by identifying section lines, i.e., I section, 1 section with 8 surrounding sections, 4 sections, etc.
2. The distance from the proposed drilling location from the section's south / north and east / west.
3. The distance to the nearest lease or unit boundary line.
4. If proposed location is located within a prorated or spaced field a certificate of acreage attribution must be attached. (CD-7 for oil wells; CD-6 for gas wells).
