The undersigned hereby affirms that the drilling, completion and eventual plugging of this well will comply with K.S.A. 55 et. seq.

It is agreed that the following minimum requirements will be met:
1. The operator must submit a drilling permit to the KCC prior to spudding of well.
2. A copy of the approved notice of intent to drill shall be posted on the well site.
3. The minimum amount of surface pipe as specified below must be set by the operator to the top of the well to prevent corrosion of materials and prevent contamination.
4. If the well is a dry hole, an agreement between the operator and the district office on plug length and placement is necessary prior to plugging.
5. The operator must submit a drilling permit to the KCC prior to spudding of well.
6. If an alternate field completion, production pipe shall be cemented from before any usable water to surface within 120 days of spudding date. A Notice to the KCC, 60 days prior to spudding date, stating the date and time for the delivery of the materials shall be submitted.

I hereby certify that the statements made above are true and correct to the best of my knowledge and belief.

(Show footage to the nearest lease or unit boundary line.)

NOTE: In all cases locate the spot of the proposed drilling location.

In plotting the proposed location of the well, you must show:
1. The manner in which you are using the proposed plat by identifying section lines, i.e., section, 1 section with 8 surrounding sections, 4 sections, etc.
2. The distance of the proposed drilling location from the section's south / north and east / west.
3. The distance to the nearest lease or unit boundary line.
4. If proposed location is located within a prorated or spaced field a certificate of acreage attribution plat must be attached. (CO-T for oil wells, CO-8 for gas wells).

RE: Drilling Pit Application
Carter Lease Well No. 9
NW4 Sec. 35-14S-13W
Russell County, Kansas

Dear Mr. Vonfeldt:

District staff has inspected the above referenced location and has determined that the reserve pit shall be constructed without risers, the bottom shall be flat and reasonably level, and the free fluids must be removed. The fluids are to be removed from the reserve pit as soon as practical after drilling operations have ceased. Please keep all pits away from any draws.

If production casing is set all completion fluids shall be removed on a daily basis.

The fluids should be taken to an authorized disposal well. Please call the District Office at (785) 625-0550 when the fluids have been removed. Also, please file the enclosed CDP-5 form, Surface Pond Waste Transfer, within 30 days of fluid removal.

A copy of this letter should be posted in the doghouse along with the approved Intent to Drill. If you have any questions or concerns please feel free to contact the undersigned at the above address.

Sincerely,

Kathy Haynes
Environmental Protection and Remediation Department
