If ONOWC: old well information as follows:
Operator:

Well Name:
Original Completion Date:________
Original Total Depth:________

Directional, Deviated or Horizontal well? No
If Yes, true vertical depth:________
Bottom Hole Location:

KCC DKT #: 1565-1F1

This underwritten hereby attests that the drilling, completion and eventual plugging of this well will comply with KOMA, 56 et seq.

It is agreed that the following minimum requirements will be met:

1. Notify the appropriate district office prior to spudding well.
2. A copy of the approved notice of intent to drill shall be posted on each drilling rig.
3. The minimum amount of surface pipe as specified below shall be set by circulating cement to the top; in all cases surface pipe shall be set through all unconsolidated materials plus a minimum of 20 feet below the underlying formation.
4. If the well is dry hole, agreement between the operator and the district office on plug length and placement is necessary prior to plugging;
5. The appropriate district office will be notified before well is either plugged or production casing is cemented.
6. If an ALTERNATE II COMPLETION, production pipe shall be cemented from below any usable water to surface within 120 days of spud date. For purposes of the KCC District 3 area, alternate cementing must be completed within 30 days of the spud date or the well shall be plugged.

In all cases, NOTIFY district office prior to any cementing.

I hereby certify that the statements made herein are true and correct to the best of my knowledge and belief:
