AFFIDAVIT

The undersigned hereby affirms that the drilling, completion and eventual plugging of this well will comply with K.S.A. 55-101 et. seq. It is agreed that the following minimum requirements will be met:

1. Notify the appropriate district office prior to starting of well.
2. A copy of the approved notice of intent to drill shall be posted on each drilling rig.
3. The minimum amount of surface pipe as specified below shall be set by grouting cement to the top of all casings. Surface pipe shall be set through all un consolidated materials plus a minimum of 20 feet into the underlying formation.
4. If the well is dry hole, an agreement between the operator and the district office regarding length and placement is necessary prior to plugging; and/or
5. If the appropriate district office will be notified before well is either pluggable or production casing is cemented in; and/or
6. If an ALTERNATE COMPLIANCE, production pipe shall be cemented from below any usable water to surface within 720 days of spud date. Of pursuant to Appendix B: Eastern Kansas surface taking order #129,891-C, which applied to the KCC District 3 area, alternate C cementing must be completed within 30 days of the well date or the well must be plugged. In all cases, NOTIFY district office prior to any cementing.

I hereby certify that, the statements made herein are true and to the best of my knowledge and belief.

35.29.2.4
In plotting the proposed location of the well, you must show:

1. The manner in which you are using the depicted plat by identifying section lines, i.e., 1 section, 4 sections, etc.
2. The distance of the proposed drilling location from the section's south, north, and east, west lines.
3. The distance from the nearest lease or unit boundary line.
4. If the proposed location is within a prorated or spaced field, a certificate of acreage attribution plat must be attached (CO-7 for oil wells, CO-8 for gas wells).
