**Important Procedures to Follow:**

1. Notify District office before starting surface casing.
2. Set surface casing by circulating cement to the top.
3. File completion forms with KCC within 120 days of well being completed.
4. Notify District office 48 hours prior to old well workover or re-entry.
5. Submit plugging report (CP-4) to KCC after plugging is completed.
6. If an alternate 2 completion cement in the production pipe from below any washout valve in surface within 120 days of spud date.

RE: Drilling Pit Application
Kansas B Lease Well No. 312
SW/4 Sec. 02-25S-33W
Finney County, Kansas

Dear Ms. McCarley:

District staff has inspected the above referenced location and has determined that the reserve pit shall be constructed without slots, the bottom shall be flat and reasonably level, and the free fluids must be removed. The fluids are to be removed from the reserve pit as soon as practical after drilling operations have ceased.

If production casing is set all completion fluids shall be removed on a daily basis.

The fluids should be taken to an authorized disposal well. Please call the District Office at (620) 225-8859 when the fluids have been removed. Also, please file the enclosed CDP-5 form, Surface Pond Waste Transfer, within 30 days of fluid removal.

A copy of this letter should be posted in the doghouse along with the approved Intent to Drill. If you have any questions or concerns please feel free to contact the undersigned at the above address.

Sincerely,

[Signature]

Kathy Haynes
