AFFIDAVIT

The undersigned hereby affirms that the drilling, completion and eventual plugging of this well will comply with K.S.A. 50-23, 50-30. It is agreed that the following minimum requirements will be met:

1. Notify the appropriate district office prior to spudding of any well.

2. A copy of the appropriate notice of intent to drill shall be posted on each drilling rig.

3. The minimum amount of surface pipe as specified below shall be set by circulating cement to the top; in all cases, this completion shall be set through all unconsolidated materials plus a minimum of 20 feet into the underlying formation.

4. If the well is a dry hole, an agreement between the operator and the district offices on plug placement and subsequent well abandonment is necessary prior to plugging.

5. The appropriate district office will be notified before well is either plugged or production casing is cemented.

6. If an alternate completion, production pipe shall be cemented from below any usable water to surface within 120 days of spud date.

Or pursuant to Appendix 'B' - Eastern Kansas surface casing order #133,391-C, which applies to the KCC District 3 area, alternate B cementing must be completed within 30 days of the spud date or the well shall be plugged. In all cases, NOTIFY district office prior to any cementing.

I hereby certify that the statements made herein are true and to the best of my knowledge and belief.

Date: MARCH 30, 2005

IN ALL CASES PLOT THE INTENTED WELL ON THE PLAT BELOW

Plat of acreage attributable to a well in a prorated or spaced field

If the intended well is in a prorated or spaced field, please fully complete this side of the form. If the intended well is in a prorated or spaced field, complete the plat below showing that the well will be properly located in relationship to other wells producing from the common source of supply. In each case show all the wells within 1 mile of the boundaries of the proposed acreage attribution unit for gas wells and within 1/2 mile of the boundaries of the proposed acreage attribution unit for oil wells.

API No. 15- Location of Well: County: KEARNEY
Operator: BP AMERICA PRODUCTION COMPANY Line of Section
Lease: SIEBERT Sec:
Well Number 1375 FSL feet from Sec 09
Field: HUGO/CHASE Tap:
Number of Acres attributable to well: 640 S 6 R 35 W
QTR/QTR/QTR of acreage SW -- NE -- SW

Is Section X Regular or ___ Irregular
If Section is irregular, locate well from nearest corner boundary,
Section corner used: ___ NE ___ NW ___ SE ___ SW

PLAT
(Show location of the well and shade attributable acreage for prorated or spaced wells.)
(Show footage to nearest line or unit boundary line)

In plotting the proposed location of the well, you must show:
1. The manner in which you are using the depicted plat by identifying section lines, i.e., 1 section, 1 section with 8 surrounding sections, 4 sections, etc.;
2. The distance of the proposed drilling location from the sector's southnorth and eastwest; and
3. The distance to the nearest lease or unit boundary line.
4. If proposed location is located within prorated or spaced field a certificate of acreage attribution plat must be attached: (CD-7 for oil wells: CD-9 for gas wells).
