IN ALL CASES PLOT THE INTENDED WELL ON THE PLAT BELOW
Plot of acreage attributable to one well in a prorated or spaced field

If the intended well is in a prorated or spaced field, please fully complete this side of the form. 1 the intended well is in a prorated or spaced field complete the plat below showing that the well will be properly located in relationship to other gas wells and within 1/2 mile of the boundaries of the proposed acreage attributable unit for all wells.

API No. 15  
Operator: United Petroleum Company  
Lines:  
Well Number: 1  
Field: Wildcat  
Number of Acres attributable to well: 640  
QTR / QTR / QTR of acreage: NW4, NW4, SE4

Location of Well:  
County: Seward  
Section: 10  
Twp: 33  
R: 33  
E / W Line of Section

Location of Well:  
County: Seward  
Section: 10  
Twp: 33  
R: 33  
E / W Line of Section

Is Section:  
Regular or Irregular

If Section is Irregular, locate well from nearest corner boundary.
Section corner used: NE NW SE SW

PLAT
(Show location of the well and shale attributable acreage for prorated or spaced wells)
(Show footage to the nearest lease or unit boundary line)

NOTE: In all cases locate the spot of the proposed drilling location.

In plotting the proposed location of the well, you must show:
1. The manner in which you are using the depicted plat by identifying section lines, i.e. 1 section, 3 section with 8 surrounding sections, 4 sections etc.
2. The distance of the proposed drilling location from the section's south, north and east, west
3. The distance to the nearest lease or unit boundary line.
4. If proposed location is located within a prorated or spaced field a certificate of acreage attributable plat must be attached. (CO-7 for oil wells, CG-8 for gas wells).

RE: Drilling Pit Application  
Reiss Lease Well No. 1  
SE/4 Sec. 10-33S-31W  
Seward County, Kansas

Dear Mr. Earnest:

District staff has inspected the above referenced location and has determined that the reserve pit shall be constructed **without slots**, the bottom shall be flat and reasonably level, and the free fluids must be removed. The fluids are to be removed from the reserve pit as soon as the Hutchinson Salt section has been drilled through and displacement of the fluids into the reserve pit has occurred. The fluids should be removed again as soon as practical after drilling operations have ceased.

If production casing is set all completion fluids shall be removed on a daily basis.

The fluids should be taken to an authorized disposal well. Please call the District Office at (620) 225-8888 when the fluids have been removed. Also please file the enclosed CDP-5 form, Surface Pond Waste Transfer, within 30 days of fluid removal.

A copy of this letter should be posted in the doghouse along with the approved Intent to Drill. If you have any questions or concerns please feel free to contact the undersigned at the above address.

Sincerely,

Kathy Hoyted  
Environmental Protection and Remediation Department
