KCC DKT 

Affidavit

The undersigned hereby affirms that the completion and eventual plugging of this well will comply with K.S.A. 55-55 et seq.

It is agreed that the following minimum requirements will be met:
1. Notify the appropriate district office prior to spudding well.
2. A copy of the approved notice of intent to drill shall be posted on each drilling rig.
3. The minimum amount of surface pipe as specified shall be set by cementing the top in all cases surface pipe shall be set
4. All unconsolidated materials, plus minimum of 50 feet into the underlying formation.
5. If the well is dry hole, an agreement between the operator and the district office on plug length and placement is necessary prior to plugging:
6. If an alternate completion, production pipe shall be cemented from below any usable water to surface within 120 days of spud date.

For purposes of Appendix B - Eastern Kansas surface casing order #133.951-C, which applies to the KCC District 5 area, alternate cementing must be completed within 30 days of the spud date or the well shall be plugged. In all cases, NOTIFY district office prior to any cementing.

I hereby certify that the statements made herein are true and to the best of my knowledge and belief.

IN ALL CASES PLOT THE INTENDED WELL ON THE PLAT BELOW

Plat of acreage attributable to a well in a prorated or spaced field

If the intended well is in a prorated or spaced field, please fully complete this side of the form. If the intended well is in a prorated or spaced field complete the plat below showing that the well will be properly located in relationship to other wells producing from the common source of supply. Please show all the wells and within 1 mile of the boundaries of the proposed acreage attribution unit for gas wells and within 1/2 mile of the boundaries of the proposed acreage attribution unit for oil wells.

API No. 15:
Operator: Murphy Drilling Company, Inc.
Lease: Mother-Simon Unit *see leases attached
Well Number: 1-4
Status: unknown
Number of Acres attributable to well:
QTR/QTR/QTR of acreage: SE SW NW

Location of Well
Location from:
[Diagram showing location from various points]

County:
Rocks

Line of Section:
Sec.:
Twp.:
S. R.:

Eas'/Wes':

Section:
Regular or:
Irregular

If Section is Irregular, locate well from nearest corner boundary.
Section corner used:

Probable Plat:

(Show location of & shade attributable acreage for prorated or spaced wells)
(Show footage to the nearest lease or unit boundary line)

Example:

NOTE: In all cases locate the spot of the proposed drilling location.

In plotting the proposed location of the well, you must show:
1. The manner in which you are using the depicted plat by identifying section lines, i.e. 1 section, 1 section with 8 surrounding sections, 4 sections, etc.
2. The date(s) of the proposed drilling location from the section's south / north and east / west.
3. The distance to the nearest lease or unit boundary line
4. If proposed location is located within a prorated or spaced field a certificate of acreage attribution plat must be attached. (CD-7 for oil wells; CD-8 for gas wells)
