Well Name:

Original Completion Date:

Original Total Depth:

Directional, Deviated or Horizontal well?

Bottom Hole Location:

KCC on file:

APPLICANT:

LAW. 128' FLD.

The undersigned hereby certifies that this drilling completion, and eventual plugging of this well will comply with all K.S.A. 55, sec. 1057.

It is agreed that the following minimum requirements must be met:

1. Notify the appropriate district office prior to spudding of well
2. A copy of the approved notice of intent to drill shall be posted on each drilling rig
3. The minimum amount of surface pipe as specified below shall be set by circulating cement to the top, in all cases surface pipe shall be set through all unconsolidated material plus a minimum of 20 feet into the underlying formation
4. If the well is a dry hole, an agreement between the operator and the district office on slug length and placement is necessary prior to plugging;
5. The appropriate district office will be notified before well is either plugged or production casing is cemented in;
6. If an ALTERNATE II COMPLETION, production pipe shall be cemented from below any usable water to surface within 120 days of spud date

On pursuant to Appendix "B" Eastern Kansas surface casing order of 533-95, which applies to the KCC District 3 area, all cementing must be completed within 30 days of the spud date or the well shall be plugged. I am aware of KCC'S appointment order prior to any plugging of the designated well.

I hereby certify that the statements made herein are true and to the best of the undersigned's belief.

Date: 6/29/02
