   Approval Date:

9. The undersigned hereby affirms that the drilling, completion and eventual plugging of this well will comply with K.S.A. 55-1, 34.

It is agreed that the following minimum requirements will be met:

1. Notify the appropriate district office prior to starting of well drilling.
2. A copy of the approved notice of intent to drill shall be posted on each drilling tool.
3. The minimum amount of surface pipe to be specified below shall be set by circulating cement to the top. In all cases surface pipe shall be set through all uncased portions, mast and a minimum of 20 feet into the underlying formation.
4. If the well is dry hole, an agreement between the contractor and the district office on uplift height and placement is necessary prior to plugging;
5. The appropriate district office will be notified below well is either plugged and cemented or in;
6. An ALTERNATE II COMPLETION, production shall be cemented from below any usable water to surface within 120 days of spud date.

In pursuance of Appendix B of the Kansas Surface casing order 113,661-C, which applies to the Kansas Oil Conservation, alternate cementing must be completed within 30 days of the spud date or the well shall be plugged. In all cases, NOTIFY district office prior to any cementing.

I hereby certify that the statements made herein are true and to the best of my knowledge and belief.
