Surface Pipe by Reference: 

Length of Surface Pipe Planned to be: 100`

Length of Conduit Pipe Required: 

Projected Total Depth: 500`

Producing Formation Target: 

Water Source for Drilling Operations: 

Well Site: 

Driller: 

DH Wells #: 

Will Contain: 

If Yes, proposed zone: 

AFFIDAVIT

The undersigned hereby affirms that the drilling, completion and eventual plugging of this well will comply with K.S.A. 55-101, et seq.

1. Notify the appropriate district office prior to spudding of well.
2. A copy of the approved notice of intent to drill shall be posted on each drilling rig.
3. The minimum amount of surface pipe as specified below shall be set by circulating cement to the top; in all cases subject to approval of the district office.
4. If the well is a dry hole, an agreement between the operator and the district office on length and placement is necessary prior to plugging.
5. The appropriate district office will be notified before well is either plugged or production casing is cemented in.
6. If an alternate completion, production pipe shall be cemented from below any usable water to surface within 120 days of spud date.

In all cases, NOTIFY district office prior to any drilling.

I hereby certify that the statements made herein are true and to the best of my knowledge and belief.

Scott Sabo签名
