Bottom Hole Location:

Will Come be Taken?

Yes

No

APPROVIT

The undersigned hereby affirms that the drilling, completion and eventual plugging of this well will comply with K.S.A. 55 et. seq.

I am agreed that the following minimum requirements will be met:

1. Notify the appropriate district office prior to spudding of well;
2. A copy of the approved notice or intent to drill shall be posted on each drilling rig;
3. The minimum amount of surface pipe as specified below shall be set by circulating cement to the top; in all cases surface pipe shall be set through all uncontaminated materials via a minimum of 30 feet into the underlying formations;
4. If the well is in dry hole, an agreement between the operator and the district office on plug length and placement is necessary prior to plugging;
5. The appropriate district office will be notified before well is either plugged or production casing is cemented in;
6. If an ALTERNATE II COMPLETION, production pipe shall be cemented from bottom up to the desirable usable surface to within 120 days of spudding. Or pursuant to Appendix B, Eastern Kansas surface casing order 133,891-C, which applies to the KCC District 3 area, alternate if cementing must be completed within 30 days of the spudding or the well shall be plugged. In 180 cases, NOTIFY district office prior to any cementing.

I hereby certify that the statements made herein are true and correct to the best of my knowledge and belief.

Date:
