ATTACHED NATURAL GAS LETTER

APPROVED

The undersigned hereby affirms that the drilling, completion and eventual plugging of this well will comply with K.S.A. 55 et seq.

If it is agreed that the following minimum requirements will be met:

1. Notify the appropriate district office prior to starting of well
2. A copy of the approved notice of intent to drill shall be posted on each driling rig.
3. The minimum amount of surfice pipe as specified below shall be set by equipping cement to the top; in all cases surface pipe shall be set through all unconsolidated materials plus a minimum of 20 feet into the unconsolidated formation.
4. The well is to be held, an agreement between the operator and the district office on plug length and previous is necessary prior to plugging;
5. The appropriate district office will be notified before well is either plugged or production casing is cemented in;
6. If an ALTERATIVE II COMPLETION, production pipe shall be cemented from below any usable surface to surface within 120 days of spud date.

Or pursuant to Appendix B - Eastern Kansas surface casing order #1433.861-C, which applies to the KCC District 6 area, alternate II plugging must be completed within 30 days of the whoal well or the well shall be plugged. In all cases NOTIFY district office prior to any cementing.

I hereby certify that the statements made herein are true and to the best of my knowledge are belief.

Date: December 7, 2005
