Depth to bottom of water: 200

Affidavit

The undersigned hereby affirms the following completion and eventual plugging of this well will comply with K.S.A. 55 et seq.

It is agreed that the following minimum requirements will be met:

1. Notify the appropriate district office prior to spudding of well;
2. A copy of the approved notice of intent to drill shall be posted on each drilling rig;
3. The minimum amount of surface pipe as specified below shall be set by circulating cement to the top; in all cases surface pipe shall be set through unconsolidated materials plus a minimum of 30 feet into the underlying formation;
4. If the well is dry hole, an agreement between the operator and the district office on plug length and placement is necessary prior to plugging;
5. The appropriate district office will be notified before well is either plugged or cased in; and
6. If an ALTERNATIVE if COMPLETION, production pipe shall be cemented free of any usable water to surface within 120 days of spud date. Of pursuant to Appendix B - Eastern Kansas surface casing order #103081-C, which applies to the KCC District 3 area, although it cementing must be completed within 30 days of the spud date the well shall be plugged. In all cases, NOTIFY district office prior to any cementing.

I hereby certify that the statements made herein are true and to the best of my knowledge and belief.

Approved by

This authorization expired: (This authorization will be good only if drilling has started within 6 months of approval date.)

Spud date: Agent:
IN ALL CASES PLOT THE INTENDED WELL ON THE PLAT BELOW

Plot of acreage attributable to a well in a prorated or spaced field.

If the intended well is in a prorated or spaced field, please fully complete this side of the form. If the intended well is in a prorated or spaced field complete the plat below showing that the well will be properly located in relationship to other wells producing from the common source of supply. Please show all the wells and within 1 mile of the boundaries of the proposed acreage, attribute unit for gas wells and within 1/2 mile of the boundaries of the proposed acreage attribute unit for oil wells.

API No. 15:
Operator: Cherokee LLC
Lease: Kopf, Robert A.
Well Number: T7-1
Field: Cherokee Basin OSM

Location of Well: County: Northeast
1880 1880
Twp. 28 S. 15
Sec. 17 W. 6
Line of Section
Lot from N / E / W
Line of Section
Lot from N / E / W

Is Section: Regular or Irregular
If Section is Irregular, locate well from nearest corner boundary.
Section corner used:

PLAT
(Show location of the well and shade attributable acreage for prorated or spaced wells.)
(Show footage to the nearest lease or oil boundary line.)

EXAMPLE

NOTE: In all cases toward the spot of the proposed drilling location.

In plotting the proposed location of the well, you must show:

1. The manner in which you are using the expired plat by identifying section lines, i.e. 1 section, 1 section with 4 surrounding sections, 4 sections, etc.
2. The distance of the proposed drilling location from the section's south / north and east / west.
3. The distance to the nearest lease or oil boundary line.
4. If proposed location is located within a prorated or spaced field a certificate of acreage attribution plat must be attached (CO-7 for oil wells; CO-8 for gas wells).
