KCC DET?

The undersigned hereby affirms that the drilling, completion and eventual shipping of this well will comply with K.S.A. 55-120.

It is agreed that the following minimum requirements will be met:

1. Notify the appropriate district office prior to spudding of well.
2. A copy of the approved notice of intent to drill shall be posted in each drilling rig.
3. The minimum amount of surface pipe as specified below shall be set by circulating cement to the top; in all cases surface pipe shall be set through all unconsolidated materials plus a minimum of 20 feet into the underlying formation.
4. If the well is dry hole, an agreement between the operator and the district office on VC length and placement is necessary prior to spudding.
5. The appropriate district office will be notified before well is either plugged or production casing is cemented;
6. If an alternate completion, production pipe shall be cemented from below any usable water to surface within 120 days of spud date, or

Or pursuant to Appendix B of Eastern Kansas surface casing order #163,891-C, which applies to the KCC District 3 area, adequate cementing must be completed within 30 days of the spud date or the well shall be plugged.

In all cases, NOTIFICATION districts prior to any cementing.

I hereby certify that the statements made herein are true and to the best of my knowledge and belief.
