Describe in detail the manner in which the well was plugged, indicating where the mud fluid was placed and the method or methods used in introducing it into the hole. If cement or other plugs were used, state the character of same and depth placed, from feet to feet for each plug set.

Well was circulated with heavy mud, then plug was set at 150 feet. 15 sacks of cement were then hand mixed and put through the drill pipe on top of the plug. Second plug was set at 40 feet and 10 sacks of cement were then hand mixed and put through the drill pipe on top of the plug.
