Plugging Proposal Received By: VIRGIL CLOTHIER
Witness Type: PARTIAL
Date/Time Plugging Completed: 05/26/2006 11:15 AM
KCC Agent: VIRGIL CLOTHIER

Actual Plugging Report:

Attempted to pull tubing out of the well on 5/23/2006. Tubing parted approximately 2 jts down. Used 4-1/2" wash-over pipe and mill shoe to mill down to approximately 256'. When tripping out with wash-over pipe, there were pieces of tubing, tubing collars, and what appeared to be casing. Ran 1" tubing on down to approximately 295' and circulated cement to surface. Cement circulated on backside of 5-1/2". Connected to 5-1/2" and pressured to 400 lbs.

Copeland cement ticket #C030456
60/40 posmix with 4% gel
