|                       |                                      | Feet from East  
|                       |                                      | County |

**Date of closure:** 28 March 2008

Was an artificial liner used?  
☐ Yes ☑ No

If no, how were the sides and bottom sealed to prevent downward migration of the pit contents?  
Bentonite and drilling solids — self sealing.

**Abandonment procedure of pit:**  
(1) Allow to dry, (2) backfill, (3) recountour to approximate the surrounding terrain.

The undersigned hereby certifies that he / she is Engineering Technician for Berexco, Inc. (Co.), a duly authorized agent, that all information shown hereon is true and correct to the best of his /her knowledge and belief.
