# Kansas Corporation Commission

## One Point Stabilized Open Flow or Deliverability Test

(See Instructions on Reverse Side)

**Company**: Veenker Resources, Inc.  
**Lease**: Goering  
**Well Number**: A-1

### Company Information
- **County**: Harvey  
- **Location**: N/2 SE NE 04  
- **Section**: 22S 02W  
- **Reservoir**: Mississippi  
- **Gas Gathering Connection**: Mid Kansas Gas Gathering, LLC  
- **Completion Date**: 8-6-75  
- **Casing Size**: 4 1/2"  
- **Internal Diameter**: Set at 3220  
- **Perforations**: To 3130  
- **Tubing Size**: 2 3/8"  
- **Internal Diameter**: Set at 2988  
- **Type Completion (Describe)**: Single Gas  
- **Type Fluid Production**: None  
- **Producing thru (Annulus / Tubing)**: % Carbon Dioxide  
- **% Nitrogen**: Gas Gravity $G_s$

### TUBING
- **Vertical Depth (ft)**: 6788  
- **Pressure Taps (Meter Run) (Prover) Size**: 4"

### Pressure Buildup
- **Shut in**: January 29 20 10 at 8:00  
- **Well on line**: Started 20 at 8:00  
- **Taken**: January 30 20 10 at 8:00  
- **Duration of Shut-in**: 24 Hours

### Open Flow (Deliverability) Calculations

$(P_i)^2 = \frac{29 C}{F_p} = \frac{P_m}{F_g} = \frac{P_i}{F_{T,R}} = \frac{P_e}{F_e} = $ 0.207

$(P_i)^2 = \frac{29 C}{F_p} = \frac{P_m}{F_g} = \frac{P_i}{F_{T,R}} = \frac{P_e}{F_e} = $ 0.207

Open Flow: Mscf @ 14.65 psia  
Deliverability: Mscf @ 14.65 psia

The undersigned authority, on behalf of the Company, states that he is duly authorized to make the above report and that he has knowledge of the facts stated therein, and that said report is true and correct. Executed this the 21st Day of FEBRUARY 2011.

RECEIVED  
March 25, 2011

KCC WICHITA
I declare under penalty of perjury under the laws of the state of Kansas that I am authorized to request exempt status under Rule K.A.R. 82-3-304 on behalf of the operator Veenker Resources, Inc. and that the foregoing pressure information and statements contained on this application form are true and correct to the best of my knowledge and belief based upon available production summaries and lease records of equipment installation and/or upon type of completion or upon use being made of the gas well herein named.

I hereby request a one-year exemption from open flow testing for the Goering A-1 gas well on the grounds that said well:

(Check one)

[] is a coalbed methane producer

[] is cycled on plunger lift due to water

[] is a source of natural gas for injection into an oil reservoir undergoing ER

[] is on vacuum at the present time; KCC approval Docket No. __________________________

[ ] is not capable of producing at a daily rate in excess of 250 mcf/D

I further agree to supply to the best of my ability any and all supporting documents deemed by Commission staff as necessary to corroborate this claim for exemption from testing.

Date: February 21, 2011

Signature: __________________________

Title: Production Analyst

Instructions: If a gas well meets one of the eligibility criteria set out in KCC regulation K.A.R. 82-3-304, the operator may complete the statement provided above in order to claim exempt status for the gas well.

At some point during the current calendar year, wellhead shut-in pressure shall have been measured after a minimum of 24 hours shut-in/buildup time and shall be reported on the front side of this form under OBSERVED SURFACE DATA. Shut-in pressure shall thereafter be reported yearly in the same manner for so long as the gas well continues to meet the eligibility criterion or until the claim of eligibility for exemption is denied.

The G-2 form conveying the newest shut-in pressure reading shall be filed with the Wichita office no later than December 31 of the year for which it's intended to acquire exempt status for the subject well. The form shall be signed and dated on the front side as though it was a verified report of annual test results.
