

Shale
Sand, Sandstone
Chert
Glauconite, Glauconitic
Limestone
Dolomite

Diagram illustrating various sedimentary rock types and their corresponding symbols:

- Shaly, shale**: Represented by horizontal lines.
- Silty, Silt**: Represented by small dots.
- Micaceous**: Represented by small circles.
- Sandy, sand**: Represented by small triangles.
- Cherty, chert**: Represented by a solid grey block.
- fossiliferous**: Represented by a fossil symbol (a circle with a vertical line through it).
- Calcareous**: Represented by a blue block.
- Dolomitic**: Represented by a blue block with a diagonal line.

Fresh Water	() Few
Brackish Water	() Many
Marine	() Broken

 - Macrofossils

Deformational Structures

- • **Nodules**
- • **Nodules - Carbonates**

- – Vuggy
- – Pinpoint
