Latitude: 38.0518408 Longitude: -98.8052738 Elevation (GL): 1903.0 Depth: 4050.0

The graph displays the growth of the workforce over a 40-year period. The 'Actual' workforce (blue line) shows a consistent increase from about 50 million in 1970 to nearly 100 million in 2010. The 'Projected' workforce (red line) follows a similar path but is slightly higher than the actual workforce in the later years, reaching just over 100 million by 2010.
