Re: Kansas Public Water Supply Loan Fund
Project No. 2267

The City of Coffeyville, Kansas is preparing an application to the Kansas Department of Health and Environment for a loan from the Kansas Public Water Supply Loan Fund for the referenced project.

The proposed project consists of replacement and relocation of an existing water main in the City of Coffeyville, Kansas. The main replacement will improve water service and fire protection to the water system customers in the area by replacing the deteriorated water main, which is currently located under the 12th Street pavement, and relocating it behind the curb in the existing street right-of-way. All improvements are planned to be undertaken on existing City of Coffeyville street right-of-ways.

The total cost of the project is preliminarily estimated to be \$625,500.00.

We would appreciate your review of the project description and location, and any comments you may have, within 30 days. A project review form is enclosed for your use.

If you have any questions, or require further information, I may be reached at the above address or by telephone at 620-252-6007.

Sincerely,

Chuck Shively, Director
Water & Wastewater Utilities
