Ms. Susan Galemore  
Planning and Development Consultant  
Southeast Kansas Regional Planning Commission  
P.O. Box 664  
Chanute, KS 66720-0664

Dear Ms. Galemore:

I received your inquiry to the Kansas Geological Survey seeking input on "Environmental Assessment Comments" for the addition of one storm siren for the City of Fulton, Kansas, located in Bourbon County, Kansas. The project consists of the installation of one siren to be mounted on a pole, and located at 408 W. Osage within Fulton, Kansas.

It is my understanding that this review is necessary for these residential areas to be considered for a grant from the Kansas Department of Commerce, Small Cities Community Development Block Grant Program for the installation of two storm sirens and a repeater. I do not recognize any specific problems with the request based on the information you have provided. Therefore, the Kansas Geological Survey provides the necessary clearance from our agency for your project and I have signed the form requesting environment assessment comments.

Sincerely,

Lawrence L. Brady  
Senior Scientist

Enc.

# Request for Environmental Assessment Comments

★ 408 W Osage St Fulton, KS 66738-3148

When using any driving directions or map, it's a good idea to do a reality check and make sure the road still exists, watch out for construction, and follow all traffic safety precautions. This is only to be used as an aid in planning.
