Dear Ms. Voorhies:

I received your inquiry to the Kansas Geological Survey seeking input on "Environmental Assessment Comments" for improvements to the sewer system for the City of Uniontown, Kansas, located in Bourbon County. The project consists of a number of upgrades to the sewer system, including construction of an additional lagoon, replacement of sewer main lines, TV inspection of existing sewer lines, and removal of sludge accumulation in existing lagoons.

It is my understanding that this review is necessary for the City of Uniontown to be considered for a grant for the sewer improvements from the Kansas Department of Commerce and Housing Small Cities Community Development Block Grant Program. I do not recognize any specific problems with your request based on the information you have provided. Therefore, the Kansas Geological Survey provides the necessary clearance from our agency for your project and I have signed the form requesting environment assessment comments.

Sincerely,

Lawrence L. Brady
Senior Scientist
