Dear Ms. Weldon:

I have reviewed your inquiry to the Kansas Geological Survey seeking input on "Environmental Assessment Comments" for construction of a fire station within the City of Altoona, Kansas. The review is for a grant request from the City of Altoona through the Southeast Kansas Regional Planning Commission to the Kansas Department of Commerce and Housing, Small Cities Community Development Block Grant Program for the construction of the fire station.

I do not anticipate environmental problems associated with the construction of the proposed fire station, if the construction work meets with the requirements and approval of the Kansas Department of Commerce and Housing. Therefore, the Kansas Geological Survey provides the necessary clearance from our agency for your project and I have signed the form requesting environment assessment comments.

Sincerely,

Lawrence L. Brady
Senior Scientist
