PART I		REVIEW AGENCIES/COMMISSION
☐ Aging	☐ Education	☐ State Forester
☐ Agriculture-DWR	☒ Geological Survey, KS	☐ Transportation
☐ Biological Survey, KS	☐ Health & Environment	☐ Water Office, KS
☐ Conservation Commission	☐ Historical Society	☐ Wildlife & Parks
☐ Corporation Commission	☐ Social & Rehabilitation	
☐ Commerce		

PART II AGENCY REVIEW COMMENTS

COMMENTS: (Attach additional sheet if necessary) There are no known hydrogeologic issues that would preclude the pipeline installation. Long-term benefits of the pipeline construction should off set any short-term adverse impacts.

PART III RECOMMENDED ACTION COMMENTS

☒ Clearance of the project should be granted.	☐ Clearance of the project should not be delayed but the Applicant should (in the final application) address and clarify the questions or concerns indicated above.
☐ Clearance of the project should not be granted.	
☐ Clearance of the project should be delayed until the issues or questions above have been clarified.	☐ Request the opportunity to review final application prior to submission to the federal funding agency.
☐ Request a State Process Recommendation in concurrence with the above comments.

Re: Environmental Request
Project No.: 14371.000

Dear Mr. Whittemore:

Consolidated Rural Water District No. 3, Shawnee County, Kansas is applying to Rural Development, USDA to construct approximately four miles of 6-inch pipeline to replace existing waterline. The existing waterline is two and three-inch glue joint pipe which is restricting supply into this southern region of the water district. The existing pipeline has reached an age where excessive cracking and leaking are creating substantial water loss. The proposed project is needed to increase available service pressures, reduce leakage and provide redundancy in the District's ability to serve water to this region. Construction includes the installation of pipeline only as shown on the enclosed map. Trenches will be restored and waterways will be directionally bored.

The enclosed materials are provided to you in accordance with Executive Order 12372, which provides for intergovernmental review of Federally funded projects. Please provide written comments to me within 30 days of the date of this letter. If there are no areas of concern or comments, we would appreciate your negative report. A project review form is enclosed for your use.

This project will comply with all state laws concerning this type of project.

Funds will not be obligated for this project until after the 30 days have expired and an environmental assessment has been completed.

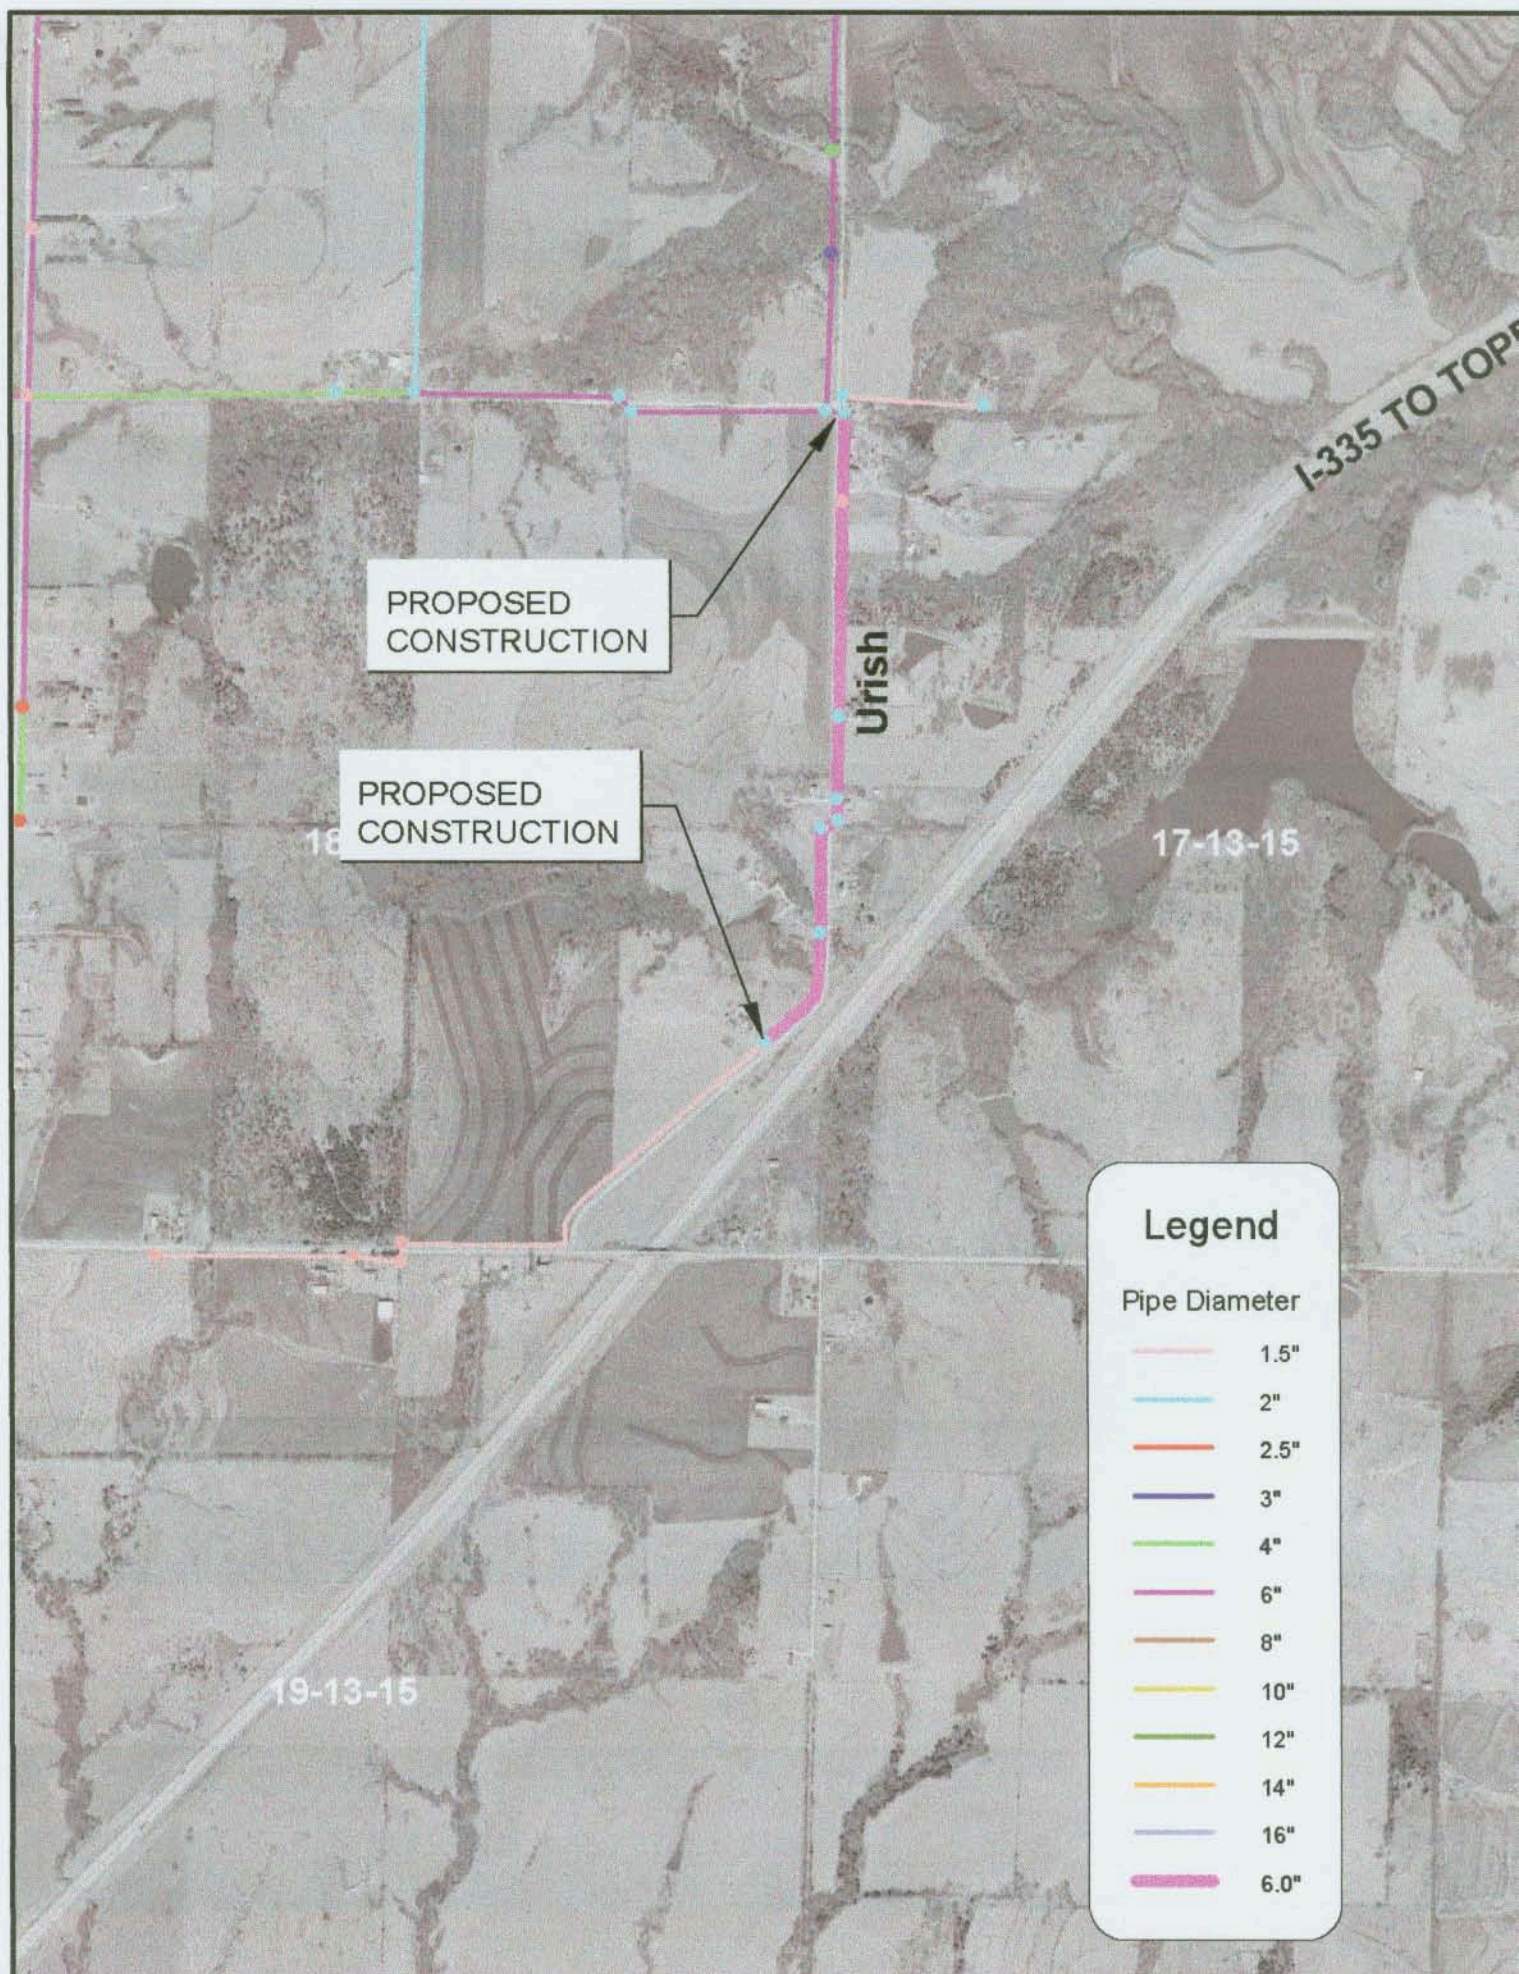

Sincerely,

Susan E. Soelter

Susan E. Soelter
