Mr. Sandy Erbe  
Planning and Development Consultant  
Southeast Kansas Regional Planning Commission  
P.O. Box 664  
Chanute, KS 66720-0664

Dear Mr. Erbe:

I received your inquiry to the Kansas Geological Survey seeking input on "Environmental Assessment Comments" for the construction of a new fire station for the City of Uniontown, located in Bourbon County, Kansas. The project involves the construction of a 60ft. X 100ft. fire station

It is my understanding that this review is necessary for this project to be considered for a Kansas Department of Commerce Small Cities Community Development Block Grant to assist with the cost of the fire station construction. Based on the information provided to the Kansas Geological Survey, I do not recognize any potential problems with this proposal. Therefore, the Kansas Geological Survey provides the necessary clearance from our agency for your project and I have signed the form requesting environmental assessment comments.

The above discussion represents our best assessment based on the information that the Kansas Geological Survey has about this locality and/or proposed project at the time of this writing. Other geologic conditions, not discussed herein, or for which the Kansas Geological Survey has no knowledge, may affect the viability or safe operation of this facility or property. The information provided in this letter is from regional or countywide studies and should not be used as a substitute for detailed site characterization by a licensed geologist or engineer. It is the responsibility of the applicant to provide any required site characterizations.

Sincerely,

Lawrence L. Brady  
Senior Scientist

Enc.
