RE: Agency Review Transmittal Form for Iwig Family Dairy, LLC

Dear Mr. Schminke:

I have received your request for comment by the Kansas Geological Survey (KGS) on an application to USDA Rural Development to assist Iwig Family Dairy, LLC of Tecumseh, Kansas. The money is to assist in working capital for value added marketing of naturally produced dairy products.

Since the application is for product marketing, the Kansas Geological Survey has no knowledge of geologic issues affecting this application. I have signed and enclosed the Agency Review Transmittal Form.

The above discussion represents our best assessment based on the information that the Kansas Geological Survey has about this locality and/or proposed project at the time of this writing. Other geologic conditions, not discussed herein, or for which the Kansas Geological Survey has no knowledge, may affect the viability or safe operation of this facility or property. The information provided in this letter is from regional or countywide studies and should not be used as a substitute for detailed site characterization by a licensed geologist or engineer. It is the responsibility of the applicant to provide any required site characterizations.

If you have any questions, please contact me at (785) 864-2194 or ohlmac@kgs.ku.edu.

Sincerely,

Gregory Ohlmacher, P.G.
Associate Scientist
