Debra Carlson Ohlde
North Central Regional Planning Commission
P.O. Box 565
Beloit, KS 67420

Dear Ms. Ohlde,

I have reviewed the proposed project for the City of Hanover, Kansas.

Based on the documents attached to your request, it does not appear that there are any potential geologic hazards worth noting that might prevent this project from moving forward.

The above discussion represents our best assessment based on the information that the Kansas Geological Survey has about this locality and/or proposed project at the time of this writing. Other geologic conditions, not discussed herein, or for which the Kansas Geological Survey has no knowledge, may affect the viability or safe operation of this facility or property. The information provided in this letter is from regional or countywide studies and should not be used as a substitute for detailed site characterization by a licensed geologist or engineer. It is the responsibility of the applicant to provide any required site characterizations.

If you have questions please do not hesitate to contact me at my office (785 – 864-2068).

Sincerely yours,

P. Allen Macfarlane

AGENCY REVIEW TRANSMITTAL FORM

Comments by: Kansas Geological Survey
 Type or Print Name and Agency Transmittal Date

PROJECT TITLE: City of Hanover ☒ Notification of Intent
 Water Tower Construction ☐ Preapplication
 CONTACT PERSON: Deb Ohlde, NCRPC, Administrator ☐ Final Application
 (785) 446-3775 ☐ Direct Development

This form provides notification and the opportunity for your agency to review and comment on this proposed project as required by Executive Order 12372. Please complete Parts I, II & III as appropriate. Your prompt response will be appreciated.

RETURN TO: **By 5/22/07**

Re: City of Hanover New Water Tower Construction
Kansas Public Water Supply Loan Fund Project No. 2395 and
CDBG 07-PF-708

To Whom It May Concern:

The City of Hanover was approved approximately two years ago for a loan from the Kansas Public Water Supply Loan Fund from the Kansas Department of Health and Environment for the referenced project. Since that time, the Kansas Department of Commerce has also awarded the city CDBG funds to fund the remainder of the project. Although the environmental review was conducted at the time of the KDHE application, KDOC requires re-notification due to the time lapse since the initial documentation was prepared.

The project will involve construction of a new 100,000 gallon pedestal water tower, modifying existing piping to connect the new tower to the existing distribution system, demolishing the existing standpipe, engineering and construction inspection. The new tower will be constructed very near the location of the existing tower within the city limits as can be seen on the enclosed map. The location is in the NE 1/4 Section 9 Township2S Range 5E in Washington County Kansas.

The Total proposed budget for the project is \$471,900

- \$406,600 Construction
- \$ 35,400 engineering design
- \$ 15,000 construction inspection
- \$ 14,500 administration

We would appreciate your review of the project description and location, and any comments you may have, within 30 days which would be May 22, 2007. A project review form is enclosed for your use. Please disregard the enclosed review/response form if you prefer to respond with a letter or with your own form. Please call me at the North Central Regional Planning Commission at 785-446-3775 or e-mail dcohlde@nckcn.com if you have any questions.

Sincerely,

Debra Carlson Ohlde
Project Administrator
