Harlan D. Foraker, P. E.
Certified Engineering Design, P. A.
810 West Douglass, Suite C
Wichita, KS 67203-6105

Dear Mr. Foraker:

I was asked to comment on the new water transmission pipeline, water storage tank, and booster pump station project for the City of Goddard. Based on the information provided to me I see no problem with the project proceeding as described. I presume that the construction materials used for the project follow the acceptable KDHE code and are sufficient to prevent leakage to the underlying Equus Beds aquifer.

The above comments are based on regional geologic conditions and limited information available to the KGS at the time of writing and cannot be used in substitute for a detailed site characterization. Other geologic conditions, not discussed here, or for which the KGS has no knowledge, may affect the viability or safe operation of this facility or property. Geotechnical engineering and design are outside the purview of the KGS. It is the responsibility of the applicant to produce any detailed site characterizations, geotechnical or environmental testing, or design by a licensed professional geologist or engineer to complete the project.

Sincerely,

Margaret A. Townsend
Hydrogeologist
Geohydrology Section

The following form may be used by the Review Agency/Commission for comments in response to the request for clearance from the proposed Public Water Supply Loan Fund Project.

☐ Army Corps of Engineers
☐ Kansas Biological Survey
☐ State Conservation Commission
☐ Kansas Corporation Commission

Re: City of Goddard, Kansas
Kansas Public Water Supply Loan Fund
Project No. 2512

Dear Ms. Townsend:

The City of Goddard, Kansas is preparing a application to the Kansas Department of Health and Environment for a loan from the Kansas Public Water Supply Loan Fund for the construction of a new water transmission pipeline, water storage tank at grade and a booster pump station. Attached is a drawing which depicts the proposed alignment of the new transmission line and the connection to the existing water wells and 500,000 gallon water tower.

We would appreciate your review of the project description and location, and any comments you may have, within 30 days. A project review form is enclosed for your use.

If you have any questions or desire additional information please call me at (316)262-8808.

Sincerely,

Harlan D. Foraker, P.E.
