Re: Allen County EMS Facility - Iola, KS

Dear Ms. Erbe:

The Kansas Geological Survey (KGS) has received Southeast Kansas Regional Planning Commission's March 31, 2008, request for environmental comments on behalf of Allen County, KS. Allen County has submitted an application for a Kansas Department of Commerce Community Development Block Grant to construct a new EMS facility. The proposed project site located at 1751 US Hwy 54 just east of Iola, KS. The construction project will consist of a new 4,850 SF building to house 4 EMS vehicles and their supporting facilities.

A review of regional geologic information along with a Mapquest site map provided by you indicates there are no unduly adverse geologic conditions that should affect this project. For the purposes of the grant, clearance of the project should proceed. A completed request for comments form is enclosed.

This letter is an assessment based on the regional geologic conditions available at the KGS at the time of writing and cannot be used in substitute of a detailed site characterization. Other geologic conditions, not discussed herein, or for which the KGS has no knowledge, may affect the viability or safe operation of this facility or property. It is the responsibility of the applicant to provide any necessary characterization, geotechnical or environmental testing, or design by a licensed professional geologist or engineer to complete the project.

Sincerely,

Shane Lyle, RG
Geology Extension Coordinator
