Dear Ms. Galemore:

I have received your Request for Environment Assessment by the Kansas Geological Survey for The City of Chanute, Kansas, concerning an Economic Development Grant from the Kansas Department of Commerce and Housing Small Cities Community Development Grant for the Hi-Lo Industries, Inc. of Chanute, Kansas. The purpose of the grant application is to assist Hi-Lo Industries to provide working capital for business expansion within Chanute potentially resulting in 14 new jobs.

Based on the information you have supplied the Kansas Geological Survey, we find no apparent problem with the application concerning environmental or geological problems. However, the primary thrust of the request will be financial support. Therefore, the appropriate use of the funds for such a corporation for expansion purposes should be reviewed by other state agencies better prepared to deal with this type of request and to whom more complete information was submitted.

The above discussion represents our best assessment based on the information that the Kansas Geological Survey has about this locality and/or proposed project at the time of this writing. Other geologic conditions, not discussed herein, or for which the Kansas Geological Survey has no knowledge, may affect the viability or safe operation of this planned expansion.

Sincerely,

Lawrence L. Brady
Senior Scientific Fellow
