RE: Construction of EMS Facility, Allen County, Kansas
Grant 07-PF-719

Dear Ms. Erbe:

The Kansas Geological Survey (KGS) has received your request asking us to review the above referenced project. In general, the project involves the construction of a new EMS Facility in Gas, Kansas.

A review of regional geologic information and project information provided by you indicates that there are no unduly adverse geologic conditions that should affect this project. Site-specific conditions should be considered prior to construction.

This letter is an assessment based on the regional geologic conditions available at the KGS and cannot be used in substitute of a detailed site characterization. Other geologic conditions, not discussed herein, or for which the KGS has no knowledge, may affect the viability of the project. It is the responsibility of the applicant to provide any necessary characterization, geotechnical or environmental testing, or design by a licensed professional geologist or engineer to complete the project.

If you have any questions please feel free to contact me at (785) 864-2099.

Sincerely,

Robert S. Sawin
Geologist
