Re: City of Haysville Storm Sewer Repairs

Dear Ms. Morgan,

The Kansas Geological Survey (KGS) has received your June 23, 2009 letter requesting us to review the above referenced project. The project involves storm sewer repairs and improvements.

A review of regional geologic information and project information provided by you indicates that there are no unduly adverse geologic conditions that should affect this project. Site-specific conditions should be considered prior to any construction.

This letter is an assessment based on information about the regional geologic conditions available via the KGS and cannot be used in substitute of a detailed site characterization. Other geologic conditions, not discussed herein, or for which the KGS has no knowledge, may affect the viability of the project. It is the responsibility of the applicant to provide any necessary characterization, geotechnical or environmental testing, or design by a licensed professional geologist or engineer to complete the project.

Sincerely,

David P. Young
Hydrologist

The City of Haysville has submitted an application for CDBG-R funds. As required, we are continuing the process by completing the Environmental Review process. Due to the nature of the project, the City will be categorically excluded subject to (CEST) 58.35(a). The City would appreciate your input and necessary documentation to put us in compliance with standards set by the program.

The submitted application includes the complete tear out of one street and portions of a second street. Storm sewer repairs and improvements will be done, none of which will increase the capacity but rather aid in the efficiency of the system. Asphalt will be reinstalled in portions of the project and concrete will be installed in other portions. All work done during the project will remain in the same curb to curb location as the original streets. I have submitted a more detailed project list as well as a map of the proposed area.

We appreciate your timely response to our request. Should you have any questions please feel free to contact me at (316) 529-5900.

Very truly yours,

CITY OF HAYSVILLE

Jeana M. Morgan, Coordinator
Planning/Community Relations

STATUTORY CHECKLIST

Use this worksheet only for projects that are Categorical Excluded under 24 CFR §58.35(a).

PROJECT NAME: _____

ERR FILE # _____ (optional)

An "ERR Determination" form should be provided as a cover to this checklist.

This checklist is a component of the Environmental Review Record (ERR) [§58.38]. Supplement the ERR, as appropriate, with photographs, site plans, maps, narrative and other information that describe the project.

24 CFR §58.5 – NEPA-Related Federal Statutes and Authorities

DIRECTIONS – For each authority, determine whether project is in compliance, either because: (1) the nature of the project does not implicate the authority under consideration, or (2) supporting information provides documentation project compliance has been achieved, or (3) an additional compliance action is required. The compliance action may include such items as obtaining a license or permit from a state, federal, or local agency, on-going oversight by a government agency, or completion of a remediation or mitigation measure.

IMPORTANT: Compliance documentation consists of verifiable source documents and/or relevant base data. Appropriate documentation must be provided for each law or authority. Publicly available documents may be incorporated by reference into the ERR, provided that each source document is clearly identified and the document available for review by interested parties. Proprietary material and studies that are not otherwise generally available for public review shall be included in the ERR. Refer to HUD or state guidance for more information.

Statute, Authority, Executive

Order, Regulation or Policy

cited at 24 CFR §58.5	Compliance Documentation
1. Air Quality [Clean Air Act sections 176(c) & (d), and 40 CFR 6, 51, 93]	
2. Airport Hazards (Clear Zones and Accident Potential Zones) [24 CFR 51D]	
3. Coastal Zone Management [Coastal Zone Management Act sections 307(c) & (d)]	No coastal zone management programs exist in the states of HUD Region VII, as established by Nat'l Oceanic & Atmospheric Administration, Office of Ocean and Coastal Resource Management. February 2005. (http://www.ocrm.nos.noaa.gov/czm/czmsitelist.html)
4. Contamination and Toxic Substances [24 CFR 58.5(i)(2)]	
5. Endangered Species [50 CFR 402]	

6. Environmental Justice [Executive Order 12898]	
7. Explosive and Flammable Operations [24 CFR 51C]	
8. Farmland Protection [7 CFR 658]	
9. Floodplain Management [24 CFR 55, Executive Order 11988]	
10. Historic Preservation [36 CFR 800]	
11. Noise Control [24 CFR 51B]	
12. Water Quality (Sole Source Aquifers) [40 CFR 149]	
13. Wetland Protection [24 CFR 55, Executive Order 11990]	
14. Wild and Scenic Rivers [36 CFR 297]	

DETERMINATION (check one):

- ☐ **COMPLIANCE IS MET.** The project is in compliance with the aforementioned authorities and regulations, as documented above.
- ☐ **ACTION REQUIRED.** The project will be compliant with the aforementioned authorities and regulations, provided further action is taken. The action is a condition of the environmental review and is described below. (An additional compliance action may include obtaining a license or permit from a state, federal, or local agency, or completing a certain remediation or mitigation measure.)

Required Condition(s):

- ☐ **UNUSUAL CIRCUMSTANCES.** The unusual circumstances of this project may result in a significant environmental impact. The project requires preparation of an Environmental Assessment (EA). Prepare the EA according to 24 CFR Part 58 Subpart E.
