RE: City center green wetland and water re-use project

Dear Mr. Beilfuss,

The Kansas Geological Survey (KGS) has received your letter sent August 3, 2009, requesting environmental review comments for the above referenced project.

A review of regional geologic information and project information provided with the request indicates that there are no unduly adverse geologic conditions that should affect this project. Site-specific conditions may need to be considered prior to commencement of the project. A completed request-for-comments form is enclosed.

This assessment was based on regional geologic and project information available to the KGS at the time of the review and should not be used for a detailed site characterization. Other geologic conditions, not discussed herein, or for which the KGS has no knowledge, may affect the feasibility of this project. It is the responsibility of the applicant to provide any necessary site characterizations, geotechnical or environmental testing, or design by a licensed professional geologist or engineer to complete the project.

If you have questions please do not hesitate to contact me at my office (785 864-2068).

Sincerely yours,

P. Allen Macfarlane

RE: Intergovernmental Review of City Center Central Green Wetland and Water Re-use
Project, Lenexa, Kansas

Dear Dr. Harrison,

The City of Lenexa, Public Works Division has applied to the Kansas Department of Health and Environment for Kansas Water Pollution Control Revolving Loan Funding. In accordance with K.A.R. 28-16-137, the City of Lenexa must submit project information for intergovernmental review and clearance. Please review the attached project information and provide written clearance/comments within 30 days.

The City of Lenexa appreciates your attention to this matter. If you have any questions about this letter or the attached project information, please contact me directly at (913) 477-7666 or email at rbeilfuss@ci.lenexa.ks.us.

Sincerely,

CITY OF LENEXA
