MAP SHOWING GEOLOGY AND CONFIGURATION OF BURIED BEDROCK SURFACE, GREAT BEND PRAIRIE, SOUTH-CENTRAL KANSAS

EXPLANATION

Unidentified strata

Cedar Hills Locality

Siltstone Formation

Harp Sands

Unidentified Shale, Coolata Formation and Harp River Shale

Wichita Formation

Bedrock aquifer area (paleo stream)

Cretaceous sandstone

Tertiary marine sandstone

Bedrock surface

Heavy black line indicates approximate location of study area. A pink shaded area indicates approximate location of study area for which additional information is available.

Scale 1:200,000

GEOLOGY Survey

Geologic map prepared by James L. Cady.
