

K. David Newell, W. Lynn Watney,
Stephen W. L. Cheng, and Richard L. Brownrigg

Stratigraphic and Spatial Distribution of Oil and Gas Production in Kansas

Subsurface Geology Series 9
1987

State of Kansas

Mike Hayden, Governor
 Board of Regents
 Richard W. Doddridge

Richard P. Senecal
 Linwood Sexton
 Norman W. Jeter
 Shirley Palmer
 Richard R. Reinhardt

Geological Survey Advisory Council

David C. Diddle
 J. Sanford Duncan
 Richard G. Cannon
 James S. Gilpin
 Robert M. Halloran
 James Kramer
 Dee McKee
 E. A. Mosher
 A. Scott Ritchie

Kansas Geological Survey, The University of Kansas

Gene A. Budig, Ed.D., Chancellor of the University and ex officio Director of the Survey
 Lee C. Gerhard, Ph.D., State Geologist and Director

Maples, Christopher, paleontologist

McClain, Thomas J., assoc. chief, geohydrology

McElwee, Carl D., hydrologist/geophysicist

Miller, Richard D., chief, exploration services

Moore, Patricia, computer-operations supervisor

Newell, K. David, petroleum geologist/stratigrapher

O'Connor, Howard G., geologist/geohydrologist

Olea, Ricardo, petroleum engineer

Paul, Shirley, petroleum geologist

Price, Esther L., word-processing typist

Reetz, Sonia, secretary

Roche, Chris, manager, automated cartography

Ross, Charles G., systems analyst

Ross, Jorgina, production manager, auto. cartography

Salle, Donna, administrative secretary

Sampson, Robert, systems designer

Schonowies, Mark, graphic designer

Shaukat, Nadeem, hydrologic-data manager

Sheldon, Kathleen, business-affairs manager

Sims, Jennifer, graphic design/publications

Sophocleous, Martin, hydrogeologist

Sorensen, Janice H., librarian/archivist

Spitz, Owen T., manager, computer services

Steeple, Don W., deputy director

Taylor, Lois, accountant

Terry, Fred, assistant editor

Townsend, Margaret A., hydrogeologist

Walkins, Lila M., asst. director, personnel management

Wainey, W. Lynn, chief, petroleum research

Wang, Truman C., chief spectrographer

Welch, Jerome E., soil scientist

Whitemore, Donald O., environmental geochemist

Wilson, Frank W., geologist

Woods, Cynthia A., clerk

Wichita Well Sample Library

Berger, Winifred M., utility worker

Caron, Joseph A., utility worker

Keener, Barbara, library assist.

Skelton, Lawrence H., geologist/manager

Wolf, Jessica, clerk

Student employees

Haug, Danny B.

Hildebrand, Greg M.

Hsu, Benedict

Johnsgard, Scott K.

Kalik, Andrew J.

Kaester, Jane

Kessler, Kevin L.

Kumarajeewa, Dinesh

Lambert, Michael W.

Liu, Wenzhi

Markelich, Mary A.

Martin, Douglas

Meyers, Joseph K.

Michnick, Steven M.

Chung, Chong-Dae

Chung, Young-Jun

Coble, Geoffrey R.

Coyle, W. George, III

Daily, Mary E.

Devine, Jeffrey S.

Evans, Catherine S.

Evenson, Ronald A.

Fesperrman, Jeffrey N.

Forgey, Brian

Foster, Dion W.

French, John

Granham, Randie L.

Abusaleh, Chanem M.

Adkins-Heljeson, Dana

Alkire, Heather L.

Anderson, James E.

Baker, Brian D.

Biller, Christine

Bird, Donna W.

Bird, Warren A.

Blaier, Kevin P.

Blescher, Katherine K.

Bock, Sabine

Boyd, Andrea S.

Brown, Randy L.

Stanley Z. Koplik, Executive Director

Frank J. Becker

Norman W. Brandeberry

Willbur T. Billington

Tom H. Collinson

Patrick I. Coyne

Acker, Patricia M., graphic designer

Adkins-Heljeson, Maria D., editor

Anderson, Joe M., engineering technician

Beene, Douglas L., systems analyst

Bennett, Brett C., electrical engineer

Berendsen, Pieter, economic geologist/geochemist

Brady, Lawrence, chief, geologic investigations

Brown, Deborah, manager, publications/sales

Brownrigg, Richard L., data-systems specialist

Buchanan, Rex, asst. director, publications

Butler, James J., hydrogeologist

and public affairs

Charlton, John C., scientific photographer

Christakos, George, mathematical geologist

Collins, David R., manager, tech. information services

Corcoran, Anna, word-processing typist

Cowan, Cora E., word-processing typist

Cox, Sharon, payroll clerk

Davidson, Lea Ann, word-processing typist

Davis, John C., chief, advanced projects

DeGraffenreid, Jo Anne, math. geol. (ed.)

Depuy, James O., systems programmer

Doveon, John D., mathematical geologist

Eberhart, Delbert L., laborer super., maintenance

Galle, O. Karmie, geochemist

Galler, Karin, clerk, business office

Gerhard, Lee C., Director/ State Geologist

Goddard, Diane Hoose, asst. director, budget

Gordon, Nina M., secretary

James, Gerard, geochemist

Johnston, Romie G., drillier, field operations

Kleinshmidt, Melvin K., drill/field operations

Knapp, Ralph W., geophysicist

Macfarlane, P. Allen, hydrogeologist

Magnuson, Larry Mike, geochemist

Stratigraphic and spatial distribution of oil and
gas production in Kansas

Cover design by Jennifer Sims, Kansas Geological Survey.
Figure 34 on page 57 shows an expanded version of the cross section idealized in the cover design.

Contents

INTRODUCTION	1
STRUCTURAL FEATURES OF KANSAS	3
DISTRIBUTION OF KNOWN OIL AND GAS FIELDS	4
FIELDS BY DECADE OF DISCOVERY	6
VOLUMETRIC DISTRIBUTION OF PETROLEUM PRODUCTION	8
STRATIGRAPHIC DISTRIBUTION OF PETROLEUM	20
Sub-Arbuckle	20
Arbuckle	22
Simpson	24
Viola and Maquoketa	26
Sturrian and Devonian limestones	28
Chatanooga and Misener	30
Mississippian	32
Morrow and Atoka	34
Cherokee and Marmaton	36
Lansing, Kansas City, and Pleasanton	39
Douglas, Shawnee, and Wabaunsee	42
Admire, Council Grove, Chase, and Sumner	44
Niobrara	50
NUMBER OF PRODUCING ZONES PER 1/4 TOWNSHIP	52
DEPTH OF PAY ZONES	56
REFERENCES	75
GLOSSARY	81

Tables

1—Most significant established fields in Kansas	11
2—Most productive fields in Kansas on basis of production per surface acre	15

Figures

1—Geologic timetable and Kansas rock chart	2
2—Post-Mississippian structural features of Kansas	3
3—Pre-Mississippian—post-Ordovician structural features of Kansas	4
4—Oil and gas fields of Kansas (by field outline)	5
5—Fields by decade of discovery	7
6—Cumulative oil production through 1982	9
7—Cumulative gas production through 1982	10
8—Ratio of gas to oil through 1982	13
9—Productivity of oil fields through 1982	16
10—Productivity of gas fields through 1982	17
11—Productivity of oil fields in 1982	18
12—Productivity of gas fields in 1982	19
13—Sub-Arbuckle production	21
14—Precambrian basement terranes in Kansas	22
15—Arbuckle production	23
16—Simpson production	25
17—Viola and Maquoketa production	27
18—Sturrian and Devonian production	29

- 19—Chatanooga and Misener production 31
- 20—Mississippian production 33
- 21—Morrow and Atoka production 35
- 22—Cherokee and Marmaton production 37
- 23—Lansing, Kansas City, and Pleasanton production 41
- 24—Douglas, Shawnee, and Wabaussee production 43
- 25—Undifferentiated Permian production 45
- 26—Admiral production 46
- 27—Council Grove production 47
- 28—Chase production 48
- 29—Summer production 49
- 30—Niobrara production 51
- 31—Number of producing zones per 1/4 township (oil only) 53
- 32—Number of producing zones per 1/4 township (gas only) 54
- 33—Number of producing zones per 1/4 township 55
- 34—Geologic map and cross section of Kansas 57
- 35—Depth from surface to deepest pay zone 58
- 36—Subsea depth of deepest pay zone 59
- 37a-43a—Kansas petroleum production differentiated by type of production for 1,000-ft depth slices 60
- 37b-43b—Kansas petroleum production differentiated by producing zone for 1,000-ft depth slices 61
