PRELIMINARY SURFICIAL GEOLOGY OF THE SEDGWICK COUNTY PORTION OF THE SEDGWICK QUADRANGLE, KANSAS

by William C. Parcell, Garet L. Dinkel, Spencer D. Post, and John W. Dunham

2017

OPEN-FILE REPORT 2017-27

GEOLOGIC UNITS

EXPLANATION

Hydrologic and Topographic

Exhibit water bodies, intermittent streams, and depressions.

Topographic

Show land and water elevations and contour positions.

Geologic Unit Boundaries

Show natural contact boundaries.

Geologic Unit

Show geologic unit boundaries and boundaries of other natural zones.

Suggested Reference to the Map

SUGGESTED REFERENCES TO THE MAP

EXPLANATION

Boundaries and locations:

- County boundary
- Geologic unit boundary
- Roadway

Topographic:

- Land and water elevations
- Contour positions

Hydrologic and Topographic:

- Exhibit water bodies
- Intermittent streams
- Depressions

Geologic Unit Boundaries:

- Show natural contact boundaries
- Show geologic unit boundaries and boundaries of other natural zones

SCALE: 1:24,000

SUGGESTED REFERENCES TO THE MAP

EXPLANATION

Boundaries and locations:

- County boundary
- Geologic unit boundary
- Roadway

Topographic:

- Land and water elevations
- Contour positions

Hydrologic and Topographic:

- Exhibit water bodies
- Intermittent streams
- Depressions

Geologic Unit Boundaries:

- Show natural contact boundaries
- Show geologic unit boundaries and boundaries of other natural zones

SCALE: 1:24,000

SUGGESTED REFERENCES TO THE MAP

EXPLANATION

Boundaries and locations:

- County boundary
- Geologic unit boundary
- Roadway

Topographic:

- Land and water elevations
- Contour positions

Hydrologic and Topographic:

- Exhibit water bodies
- Intermittent streams
- Depressions

Geologic Unit Boundaries:

- Show natural contact boundaries
- Show geologic unit boundaries and boundaries of other natural zones

SCALE: 1:24,000

SUGGESTED REFERENCES TO THE MAP

EXPLANATION

Boundaries and locations:

- County boundary
- Geologic unit boundary
- Roadway

Topographic:

- Land and water elevations
- Contour positions

Hydrologic and Topographic:

- Exhibit water bodies
- Intermittent streams
- Depressions

Geologic Unit Boundaries:

- Show natural contact boundaries
- Show geologic unit boundaries and boundaries of other natural zones
