

EXPLANATION

 Area where all or part of yield may be from shallow alluvial aquifer

 Area where all or part of yield may be from bedrock aquifers

 Area where part of yield may include highly mineralized water

500-1000
Potential yield to wells completed in the unconsolidated aquifer, in gallons per minute

Boundary of unconsolidated aquifer, as used in this report

Concealed fault

U, upthrown side; D, downthrown side

0 5 10 MILES
0 5 10 KILOMETERS
