KANSAS STATE BOARD OF AGRICULTURE

Anderson, K. L. (1942) The grasslands of Kansas: 33d. Biennial Report for the years 1941 and 1942, p. 144-160.

Bailey, E. H. S. and Blake, L. I. (1889) Composition and evaporative power of Kansas coals: Sixth Biennial Report for the years 1887-1888, part II, p. 157-163.

——— (1893) Salt in Kansas - its composition and methods of manufacture: Eighth Biennial Report, Part II, p. 167-180.

Bennett, H. H. (1931) Land impoverishment by soil erosion: 27th Biennial Report for the years 1929 and 1930, p. 171-187.

Boyce, Earnest (1935) Water supply and conservation: 29th Biennial Report for the years 1933 and 1934, p. 98-105.

Buzzard, O. A. (1927) How geography affects the markets: 25th Biennial Report for the years 1925 and 1926.

Campbell, B. F. (1894) Irrigation in Cheyenne County: Report for the quarter ending March 31, 1894, Part II, p. 86-87.

Carey, H. J. (1945) Salt of war and after the war: 34th Biennial Report for the years 1943 and 1944, p. 19-23.

Christy, Donald (1952) Weather for hire?: 37th Biennial Report for the years 1949 and 1950, p. 23-27.

Coburn, F. D. (1913) Irrigation by pumping in Western Kansas: 18th Biennial Report for the years 1911 and 1912, p. 64-78.

Davisson, M. H. (1937) Irrigation and stabilized agriculture: 31st Biennial Report for the years 1937 and 1938, p. 80-89.

——— (1941) Symposium, trends in Kansas rainfall and temperature - Their effect on water supplies: 32d. Biennial Report for the years 1939 and 1940, p. 158-167.

Dickson, R. E. (1930) Conservation and utilization of rain water: Vol. 49, no. 193 A, p. 52-56.

Dieseu, I. L. (1894) Irrigation from wells by wind power: Report for the quarter ending March 31, 1894, Part II, p. 87-95.

——— (1913) Irrigation in Finney County: 18th Biennial Report for the years 1911 and 1912, p. 80-81.

Division of Irrigation (1920) Irrigation pumping plants: Vol. 39, no. 154, p. 1-32.

Division of Water Resources (1938) Deep well pumping plants with special attention to fuel consumption: Report for the quarter ending September, 1938, vol. 57, no. 228-C, p. 1-24.

——— (1942) Progress on a state plan of water resources development: Vol. 61, no. 252, p. 1-58.

——— (1945) River basin problems and proposed reservoir projects for a state plan of water resources development: Vol. 63, no. 264, p. 1-62.

——— (1947) The Neosho River basin plan of state water resources development: Vol. 66, no. 280, p. 1-32.

——— (1947a) Steam-Flow Data: Vol. 66, no. 282, p. 1-385.

Duley, F. L. (1930) Soil erosion problems in Kansas: Vol. 49, no. 193 A, p. 29-37.

Elliott, R. S. (1874) The Plains: Vol. 2, p. 253-258.

Emery, J. S. (1894) Irrigation in sub-humid America: Report for the year ending March 31, 1894, Part II, p. 77-82.

Epperson, E. H. (1913) Pump irrigation in Scott County, Kansas: 18th Biennial Report for the years 1911 and 1912, p. 78-80.

Erhart, A. B. (1953) How far for irrigation in Kansas?: 38th Biennial Report for the years 1951 and 1952, p. 25-36.

Fields, Dale (1953) Worst floods mar 1951 season: 38th Biennial Report for the years 1951 and 1952, p. 43-47.

Flora, S. D. (1919) The climate of Kansas: 21st Biennial Report for the years 1917 and 1918, p. 335-348.

——— (1937) Is Kansas climate changing?: 31st Biennial Report for the years 1937 and 1938, p. 30-33.

——— (1948) Climate of Kansas: Vol. 67, June 1948, no. 285, p. 1-320.

Frealand, Roy (1953) Kansas population to all-time high: 38th Biennial Report for the years 1951 and 1952, p. 102-106.

Gray, A. (1875) Population: 3d. Annual Report for the year 1874.

Grimes, W. E. (1935) Marginal and submarginal lands in Kansas: 29th Biennial Report for the years 1933 and 1934, p. 60-67.

Grimsley, G. P. (1899) The buried treasures of Kansas: Eleventh Biennial Report for the years 1897 and 1898, Part IV, Kansas Mineral Products, p. 499-523.

Hay, Robert (1887) Natural gas in eastern Kansas (with appendix on oil): Fifth Biennial Report for the years 1885-1886, Part II, p. 198-206.

——— (1889) Northwest Kansas - Its topography, geology, climate and resources: Sixth Biennial Report for the years 1887-1888, Part II, p. 92-116.

——— (1889) Salt - Its discovery and manufacture in Kansas, with suggestions for its use in agriculture: Sixth Biennial Report for the years 1887-1888, Part II, p. 192-204.

——— (1891) Geology of Kansas Salt: Seventh Biennial Report, for the years 1889-1890, Part II, p. 83-96.

——— (1891a) Irrigation in western Kansas - Its water supply and possibilities: Seventh Biennial Report for the years 1889-1890, Part II, p. 129-133.

——— (1893) Geology and mineral resources of Kansas: Eighth Biennial Report for the years 1891-1892, Part II, p. 99-162.

——— (1894) Kansas minerals at the world's fair: Report for the quarter ending March 31, 1894, Part II, p. 95-98.

Haworth, E. (1895) Some discussions of irrigation problems and possibilities, moisture, soils, and related topics, as they pertain to Kansas, p. 324-387, especially 327-334: Ninth Biennial Report for the years 1893-1894.

Hovey, Horace (1875) Brachiospongia: Kansas Acad. Sci., p. 344-345 in Kansas State Board of Agriculture for 1874.

Hyde, A. M. (1933) The cost and cure of erosion: 28th Biennial Report for the years 1931 and 1932, p. 147-155.

Ijams, F. V. (1952) Counties vie for population leadership: 37th Biennial Report for the years 1949 and 1950, p. 60-71.

——— (1956) Kansas population to two million: 39th Biennial Report for the years Jan. 1953 to July 1956, p. 99-104.

Irrigation Commision (1924) Report of the State Irrigation Commissioner to the Kansas State Board of Agriculture: 24th Biennial Report.

Irrigation, Division of

Kednie, W. K. (1875) The Nebraska Hot Bluff: Kansas Acad. Sci., Proceedings Eighth Annual Meeting, p. 694-697 in Kansas State Board of Agriculture, Fourth Annual report for 1875.

——— (1875a) On tin-salting enterprises in the United States: Kansas Acad. Sci., p. 347-350 in Kansas State Board of Agriculture, Third Annual Report for 1874.

Knapp, G. S. (1921) The Kansas-Colorado Water Controversy: 22d. Biennial report for the years 1919 and 1920, p. 250-258.

——— (1925) The Irrigation problem in Kansas: 24th Biennial report for the years 1923 and 1924, p. 121-133.

——— (1941) Symposium, Trends in Kansas rainfall and temperature-What the trends are: 32d. Biennial report for the years 1939 and 1940, p. 137-148.

——— (1952) States join in Arkansas River compact: 37th Biennial report for the years 1949 and 1950, p. 72-74.

Knox, M. V. B. (1875) Calamites: Kansas Acad. Sci., Proceedings Eighth Annual Meeting, p. 701-702 in Kansas State Board of Agriculture, Fourth Annual report for 1875.

McCall, A. G. (1930) Restoring a wasted heritage: Vol. 49, no. 192 A, p. 27-29.

Moore, R. C. (1931) The nature and origin of Kansas soils: 27th Biennial Report for the years 1929 and 1930, p. 103-131.

Moses, E. R. (1894) Irrigation - its past, present, and future: Report for the year ending March 31, 1894, p. 82-86.

Mudge, B. F. (1873) Geology of the Arkansas: Kansas Acad. Sci. p. 408-410 in Kansas State Board of Ag., Transactions, 1872.

——— (1873) Red sandstone of central Kansas: Kansas Acad. Sci. p. 394-396 in Kansas State Board of Ag., Transactions, 1872.

——— (1874) On the mineral resources of Kansas: Third Annual report, p. 102-107.

——— (1874a) Rare forms of fish in Kansas: Third Annual Report, p. 356.

——— (1874b) Recent discoveries of fossil footprints in Kansas: Kansas Acad. Sci., p. 7-9 in Kansas State Board of Agriculture, Second Annual report for 1873.

——— (1875) Geological and soil report: 3d. Annual Report, p. 102-110.

——— (1875a) Pliocene Tertiary of western Kansas: Kansas Acad. Sci., p. 351-353 in Kansas State Board of Agriculture, Third Annual report for 1874.

——— (1875b) Geology of Kansas: Fourth annual report for the year ending November 30, 1875, p. 107-127.

——— (1877) Annual report of the committee on geology for the year ending November 1, 1876: Kansas Acad. Sci. Transactions, vol. 5, p. 4-5 in Fifth Annual report for the year ending November 30, 1876.

——— (1877) Bison Latifrons in Kansas: Kansas Acad. Sci., Transactions, vol. 5, p. 9-10 in Fifth Annual report for the year ending November 30, 1876.

——— (1878) Geology of Kansas: First Biennial Report, p. 46-88.

Newell, F. H. (1893) Practical benefits of a geological survey-some of the results already accomplished in Kansas by the United State Geological Survey: Eighth Biennial Report, Part II, p. 209-214.

Parker, J. D. (1873) Department of the Kansas Academy of Science - Organization and history: Kansas Academy Sci., p. 341-345 in Kansas State Board of Agriculture, Transactions 1872.

Patrick, G. E. (1875) Analysis of Kansas soils: Kansas Acad. Sci., Proceedings Eighth Annual Meeting, p. 699-700 in Fourth Annual Report for 1875.

——— (1875a) Analysis of salt: Kansas Acad. Sci. Proceedings Eighth annual meeting, p. 700-701 in Fourth Annual report for 1875.

——— (1875) Kansas chalk: Kansas Acad. Sci., Proceedings Eighth Annual meeting, p. 697-699 in Kansas State Board of Agriculture, Fourth Annual Report for 1875.

——— (1877) The Iola Gas Well: Kansas Acad. Sci. Transactions, vol. 5, p. 13-15, in Fifth annual report for the year ending November 30, 1876.

——— (1877a) The Waconda Meteorite: Kansas Acad. Sci. Transactions, vol. 5, p. 12-13 in Fifth annual report for the year ending November 30, 1876.

Pepoon, G. W. (1935) Irrigation success in Kansas: 29th Biennial Report for the years 1933 and 1934, p. 105-107.

Saunders, W. H. (1873) Coals of Kansas: Kansas Acad. Sci., p. 387-391 in Kansas State Board of Agriculture, Transactions, 1872.

——— (1873a) Limestones and coal: Kansas Acad. Sci., p. 392-393 in Kansas State Board of Agriculture, Transactions, 1872.

——— (1875) Analysis of clays: Kansas Acad. Sci., p. 341-342 in Kansas State Board of Agriculture, Third Annual report for 1874.

——— (1875a) A geological survey of Kansas: Kansas Acad. Sci., p. 342-344 in Kansas State Board of Agriculture for 1874.

Schmitt, Roy (1929) Soil erosion: 26th Biennial Report for the years 1927 and 1928, p. 101-105.

——— (1930) Soil erosion: Vol. 49, no. 193 A, p. 46-48.

Sharp, S. Z. (1894) Glacial effects in central Kansas: Report for the quarter ending March 31, 1894, Part II, p. 26-30.

Sims, Wm. (1885) State Summary - Geographical location, railroads, surface features and drainage, manufactures, lands, agricultural statistics, etc.: Fourth Biennial report for the years 1883-1884, p. 493-521.

Smrha, R. V. (1933) Irrigation for crop insurance: 28th Biennial Report for the years 1931 and 1932, p. 138-141.

——— (1945) Progress in water conservation in Kansas: 34th Biennial report for the years 1943 and 1944, p. 80-83.

——— (1948) Water rights in Kansas: 35th Biennial Report for the years, 1945 and 1946, p. 74-80.

St. John, O. (1883) Sketch of the geology of Kansas: Third Biennial Report for the years 1882-1883.

——— (1885) Artesian Wells: Fourth Biennial Report for the years 1883-1884, p. 591-603.

——— (1887) Notes on the geology of southwestern Kansas: Fifth Biennial report for the years 1885-1886, Part II, p. 132-152.

Throckmorton, R. I. (1917) Erosion of Kansas soil: 20th Biennial Report for the years 1915 and 1916, p. 170-178.

——— (1933) Kansas soils and soil map: 28th Biennial report for the years 1931 and 1932, p. 91-102.

——— (1937) A soil conservation program for Kansas: 31st Biennial report for the years 1937 and 1938, p. 39-53.

——— (1941) Symposium, trends in Kansas rainfall and temperature-Their significance in crop production: Kansas State Board of Agriculture, 32d. Biennial report for the years 1939 and 1940, p. 148-

——— (1946) Soil conservation in Kansas: Vol. 65, February, 1946, no. 271, p. 1-199.

Walker, B. F. (1915) Irrigation by pumping in Kansas - what Kansas is doing to develop irrigation: 19th Biennial report for the years 1913 and 1914, p. 301-306.

Walker, H. B. (1915) Irrigation possibilities in Kansas: 19th Biennial Report for the years 1913 and 1914, p. 307-316.
