

BOUGUER GRAVITY MAP OF KANSAS

H. YARGER, C. LAM, R. SOOBY, C. LEE, A. MARTIN, K. NG, R. ROBERTSON, Y. ZHAO, D. ADKINS-HELJESON, D. STEEPLES

OPEN FILE NOVEMBER 1, 1985

Scale 1:500,000
1 inch equals approximately 8 miles
10 0 10 20 30 40 miles
10 0 10 20 30 40 50 kilometers

Bouguer Gravity Field of the Earth in Milligal
Contour Interval 1 Milligal
Lambert Conformal Conic Projection
Standard Parallels 33° and 45°

The absolute gravity field was referenced to the International Gravity Standardization Net 1971. The Bouguer gravity field was calculated using The Gravity Formula 1967 and a density of 2.67.

Supported principally by the Kansas Geological Survey. Supported in part by the Department of Energy under Grant No. DE-AS07-19E 127204, by the U. S. Nuclear Regulatory Commission under Contract No. AT (49-24)-2056, by Three D Gravity, Inc., and by South China Sea Institute of Oceanology, Academia Sinica.

The following people made significant contributions in field work:

D. Adkins-Heljeson, J. Anderson, R. Avanesians, K. Beal, M. Bernthal, R. Blank, M. Carpenter, T. Cyre, A. Daniel, J. Grady, X. Gu, K. Hickman, S. Jarjur, C. Lam, C. Lee, S. Leonard, P. Lipe, A. Martin, M. McKibben, K. Ng, T. O'Donnell, K. Rae, R. Robertson, R. Sanders, C. Somanas, R. Sooby, P. Solo, D. Steeples, K. Steward, S. True, B. VanCleave, P. Vasconcelos, J. Viard, R. Woods, H. Yarger, Y. Zhao.
